Footnotes

- 1 Plus \$6.71 per device
- These fees have been inactive for many years. Recommendation is to maintain fee at current level.

 California State law allows for hourly rate charges of up to \$12,000 per DUI incident (those involving an accident). Equipment costs shall be billed according to the most recent California Fire Assistance
- 3 Agreement (CFAA) approved rates. Non-Residents only.Violation-Penalty per Section 12.28.140 Administrative penalty for a violation of Chapter 12.28
- 4 (FIREWORKS)
 - C. In addition to such administrative penalties, each violator shall be liable for all costs incurred by the office of the state fire marshal for the transportation and disposal of any fireworks seized from that person. The costs incurred by the office of the state fire marshal will be calculated based upon the regulations promulgated by that office.
 - D. Any Social Host who violates any provision of this Chapter shall be liable for the Response Costs relating to the violation. All Social Hosts who violate any provision of this Chapter in the same incident shall be jointly and severally liable for the Response Costs relating to the violation. The amount of Response Costs constitutes a debt owed to the City.

For a **FIRE SERVICE** there are no capacity charges or elevated storage fees, but a deposit of \$7,000 for a 4", \$8,000 for a 6", \$9,000 for an 8-inch or \$11,000 for a 10-inch fire service is applied against the itemized billing of the actual cost to install the corresponding double check detector assembly.

Additional fees which may be required: 1. Abandoning a water service - cost shall be from \$1,000 to \$2,000 depending on the volume of traffic in the street and the amount of traffic control required.

NOTES

- (1A) Cost for tapping the main and installing the service and meter within the right of way. Contractor to excavate and restore all surfaces.
- (1B) For meter sizes greater than 3" the cost for tapping the main and installing the meter within the right of way. Contractor to excavate and restore all surfaces, purchase and install tapping saddle and install the water service.
- (2) Cost of meter installation if the service is connected to the main but the meter box is not installed. Work includes excavating and restoring surface of work, the installation of the meter box, meter box lid, meter, end point, curb stop and meter spuds or flange adaptors.
- (3) A backflow device approved by the Water Department is required on domestic services for multi-family dwellings, commercial services, and irrigation services. It is also required for other services where, in the judgement of the Water Director, a pollution or contamination condition could exist. See Municipal Code Section 11.38.040 for an expanded list.
- (4) The additional prorata cost of pumping and storing if the installation is at a higher elevation than can be served by the City-wide "grid" pressure area.
- (5) The prorata cost of installations that are in the Lakes service area.
- (6A) Prorata cost of providing capital reserve for the Vallejo service area.
- (6B) Prorata cost of improvements at the Fleming Hill Water Treatment Plant for the Vallejo service area.
- (A) 3/4" service is only allowed for new commercial construction or for upsizing a residential meter. All new residential services are 1" to satisfy flow requirements of the California Fire Code. Costs for upsizing a meter from 5/8 inch to 3/4-inch will be charged as a \$500 deposit to cover actual costs.
- (B) The **400 Zone** elevated storage deposit is \$8,000 per residential dwelling unit; \$8,000 per meter equivalency for non-residential services. The **Burnham Zone** elevated storage deposit is \$9,000 per residential dwelling unit; \$9,000 per meter equivalency for non-residential services. The **400** Zone and Burnham Zone elevated storage deposit will be in lieu of elevated storage fees.
- (C) For family dwellings above the "grid" elevation, the elevated storage fee is \$1,300.
- (D) Applies to each family dwelling unit regardless of meter size. Accessory Dwelling Units added to the property may be charged up to 50% of residential capacity fees.

THE ABOVE FIGURES ARE TO BE USED ONLY AS GUIDELINES. OFFICIAL ESTIMATES OF WATER CONNECTION FEES SHOULD BE REQUESTED THROUGH THE OFFICE OF THE WATER DIRECTOR.

Notes: As per Resolution No. 16-051 N.C. City Manager is Authorized to Increase open and covered berth rates by 3% for the next Seven Years; effective from 1st July, 2016. Fiscal Year 2025-2026 Vallejo Municipal Marina Fee and Charges Schedule as set forth in Exhibit 4 to RESOLUTION NO. 25-115 N.C., which fee schedule shall be effective July 1, 2025.

Berthing fees may be waived to governmental agencies and community organizations, provided the following criteria is met:

- · Fee exempt berthing is available on a space available basis only.
- No more than one percent (1%) of the total berths within the Vallejo Municipal Marina shall be allowed for fee exempt berthing.
- \cdot Fee exempt berthing shall not be authorized in covered or other premium berths.
- · When the City Manager or his designated representative has determined that a governmental agency or community organization benefits the citizens of Vallejo or benefits the berth renters and the Marina and will not negatively impact Marina operations.
- · Berth assignment shall be as assigned by authorized Marina staff.
- $\cdot \ Groups \ or \ or ganizations \ must \ sign \ vessel \ berthing \ agreement \ and \ comply \ with \ all \ existing \ rules \ and \ regulations.$
- · Day Use and overnight guests must sign vessel berthing agreement and comply with all existing rules and regulations.
- · Vessel must carry liability insurance in the amount of \$500,000 naming the City of Vallejo as an additional insured.
- $\cdot \ \text{Marina Supervisor must inspect vessel and certify that the vessel meets all rules and regulations in effect at the time of request.}$

The City Manager, or his designated representative, is authorized to offer promotional discounts or incentives for berth rentals for the purpose of increasing occupancy/revenues.

		Fee Escalation	n Regulations									
Line <u>No.</u>	<u>Fee</u>	Authorized Annual <u>Escalation Factor</u>	Escalation Regulation Authority									
12	WATER CONNECTION FEES	ORDINANCE	Water Connection Fees: A City fee set by Sections 1 and 2 of Ordinance No. 1620 N.C. (2d), which has specific annual increases set for July 1st of 2010, 2011, 2012, and 2013.									
13	FALSE ALARM PENALTIES (Police Dept.)	Net Change in Salary and Benefit Costs	False Alarm Penalties: A penalty created by Ordinance No. 1594 N.C. (2d) and amended by Resolution 16-030 and further amended by Resolution 19-047 and incorporated into the City's Master Fee Schedule includes an annual adjustment, effective July 1, 2020 and each year thereafter on July 1, all fees in "Attachment 2" and "Attachment 3" of Resolution No. 19-047 N.C., unless otherwise noted, shall be administratively revised and increased annually by a factor equal to the net change in City salary and benefit costs for that fiscal year. Such net change is measured by comparing the total budgeted city salary and benefit costs for the fiscal year in which the change is to become effective to the total budgeted city salary and benefit costs for the prior fiscal year. Notwithstanding the foregoing, in no event shall the annual administrative revision set forth be less than zero percent (0%). Notwithstanding the foregoing, in no event shall the annual administrative revision described in this section apply to any fees and charges established by other agencies or as otherwise may be prohibited by applicable law.									
14	TAXI CAB PERMITS (Police Dept.)	Net Change in Salary and Benefit Costs	Taxi Cab Permits: A fee created by Ordinance No. 1606 N.C. (2d) and amended by Resolution 19-047 incorporated into the City's Master Fee Schedule includes an annual adjustment, effective July 1, 2020 and each year thereafter on July 1, all fees in "Attachment 2" and "Attachment 3" of Resolution No. 19-047 N.C., unless otherwise noted, shall be administratively revised and increased annually by a factor equal to the net change in City salary and benefit costs for that fiscal year. Such net change is measured by comparing the total budgeted city salary and benefit costs for the fiscal year in which the change is to become effective to the total budgeted city salary and benefit costs for the prior fiscal year. Notwithstanding the foregoing, in no event shall the annual administrative revision set forth be less than zero percent (0%). Notwithstanding the foregoing, in no event shall the annual administrative revision described in this section apply to any fees and charges established by other agencies or as otherwise may be prohibited by applicable law.

Fees #36 through #43: Solar fees are limited by California Government Code 66015, which became effective January 2018. All proposed fees comply with Government Code 66015. Solar Fees are capped at \$450 for residential and \$1000 for commercial before adding the \$38 permit issuance fee.

Fees #99 through #105 Table 1-A Buildiing Permits. Additional fees may apply based on job description and valuation. Additional fees may include: Life Safety Plan Review 70%, Title 24 Energy Plan Review 10%, Disabled Access Plan Review 15%, CalGreen Plan Review 10%, Mechanical Permit 25%, Electrical Permit 20%, Plumbing Permit 30%, and Permit Issuance \$38.

Application Extensions: Planning will charge the approved hourly rate for all extension applications.

- * Permit Issuance Fee of \$38 is included in column FY 2025-26 Fee with Surcharges and Permit Issuance Fee. The \$38 fee does not apply to permits issued online without staff assistance.
- + California Buildings Standards Fee is Fixed as per Building Standards Bulletin 08-01 untill further instructions/revisions.

RESOLUTION NO. 94-180 N.C.

BE IT RESOLVED by the Council of the City of Vallejo as follows:

WHEREAS, the City Council adopted the Northgate Specific Area Plan (SAP) No. 88-01 in October of 1988 and amended said plan in September of 1989, and

WHEREAS, said SAP contained, among others, the following goals:

- 1. To provide a comprehensive circulation network, including vehicular access and bicycle/pedestrian facilities;
- To provide and maintain public services and facilities in a manner that will not burden the existing level of service of public services and facilities within the City; and
- To provide adequate circulation into the project, so as not to impact the existing housing; and

WHEREAS, said SAP contained, among others, the following conditions:

- The project sponsor shall be responsible for providing all on-site and off-site infrastructure and public improvements required to provide service for the project area;
- 2. The project sponsor shall be solely responsible for the improvement of Columbus Parkway from northern edge of Blue Rock Springs Park to the northerly Ascot Parkway/Columbus Parkway between I-80 and the northerly Ascot Parkway/Columbus Parkway intersection to four lanes as described in the SAP. For the section of Columbus Parkway intersection, the project sponsor shall participate in a benefit district for improvements of six lanes as described in the FSEIR. The City shall determine what type of funding mechanism will be used, which project sponsors and/or property owners shall participate in these improvements, and the timing of these improvements;
- If required by the City, the project sponsor shall participate in a Benefit District to improve that section of Admiral Callaghan Lane that is currently two lanes north of Redwood Parkway; and
- 4. Within three years of adoption of the SAP, the Park and Ride Lot shall be designed and constructed by the project sponsor; and

WHEREAS, the Conditions of Approval for the amended Northgate Tentative Map No. 88-29A approved in October of 1989, reiterated these SAP conditions and added other conditions including the following:

1. All development within the project area may be subject to new and/or additional development fees and taxes as adopted by the City Council; and

WHEREAS, the relevant transportation improvements including potential financing mechanisms are part of the proposed project and/or conditions of approval for the Northgate project which has been analyzed in conformance with CEQA; and

WHEREAS, the project sponsor declared bankruptcy in June of 1992 and is, therefore, unable to fulfill the above mentioned Conditions of Approval; and

WHEREAS, the current Northgate Area property owners have expressed their desire to proceed with the development of their respective parcels: and

WHEREAS, Chapter 3.07 "Transportation Impact Mitigation Fee" of the Vallejo Municipal Code gives the City Council authority to establish fees to provide funding for required transportation facilities within specific areas of the City; and

WHEREAS, on March 1, 1994, the City Council adopted Resolution No. 94-81 N.C. receiving the Engineer's Report and setting the public hearing for March 29, 1994; and

WHEREAS, on March 15, 1994, the City Council adopted Resolution No. 94-101 N.C. resetting the public hearing for April 12, 1994; and

WHEREAS, on March 4, 1994, notices were sent to all of the affected property owners, as well as other interested parties; and

WHEREAS, on March 27, 1994, and on April 1, 1994, the notice was published in the <u>Times Herald</u> newspaper; and

WHEREAS, on April 12, 1994, the City Council held a public hearing on proposed fees; and

WHEREAS, the City Council has considered all oral and written statements made or filed by the affected property owners and other interested persons; and

WHEREAS, the City Council finds and declares that it is in the best interest of the public health, safety and welfare to consider the establishment of fees to complete the transportation improvements within Northgate Area Fee District No. 94-1.

BE IT RESOLVED as follows:

- Section 1. The City Council hereby approves the Engineer's Report on proposed fee schedules for Transportation Improvements in Northgate Area Fee District No. 94-1 dated February 1994, which generally describes the improvements to be constructed or installed and paid for by these fees and the method of determining said fees.
- Section 2. The City Council hereby confirms and adopts the Northgate Area Fee District No. 94-1 diagram as filed with the City Clerk, attached hereto as Exhibit "A" and incorporated herein by reference.
- Section 3. The City Council hereby confirms and adopts the Northgate
 Transportation Improvements Fee Schedule, attached hereto as Exhibit
 "B" and incorporated herein by reference.
- Section 4. The City Council hereby authorizes and directs the City Engineer to determine the phasing and implement the construction of improvements funded by these fees.
- Section 5. The City Council authorizes and directs the Finance Director to disburse monies collected from these fees for expenses incurred by the City in administering this Fee District and the construction of these transportation improvements.
- Section 6. The City Council authorizes and directs the City Clerk to file for record certified copies of the (i) Northgate Area Fee District No. 94-1 diagram (Exhibit "A") and (ii) the Transportation Improvements Fee Schedule (Exhibit "B") in the office of the Recorder of Solano County, California.
- Section 7. The City Council hereby directs staff to bring these fees back to the Council within the next five months. The Northgate Transportation Impact Fee Schedule adopted herein shall remain in effect until a replacement funding mechanism has been established and implemented.

ADOPTED by the Council of the City of Vallejo at a regular meeting held on April 26, 1994, by the following vote:

RESOLUTION NO. 93-215 N. C.

CHILLENA

BE IT RESOLVED by the Council of the City of Vallejo as follows:

WHEREAS, the City Council of the City of Vallejo, previously adopted Resolution No. 93-41 N.C., on January 19, 1993, to initiate proceedings pursuant to Chapter 14.36 of the Vallejo Municipal Code for the formation of a local improvement benefit district, designated Northgate Area Benefit District No. 93-1 (the "District"), and

WHEREAS, it is the intent of said benefit district to provide the means whereby, upon entering an agreement for reimbursement with the City of Vallejo, certain land owners within the district may advance the full cost of public improvements that will benefit neighboring lands in the district with assurance that reimbursement on an equitable basis will be forthcoming in accordance with Vallejo Municipal Code (VMC) Chapter 14:34, and

WHEREAS, the City Council of the City of Vallejo has received and considered the report prepared by the City Engineer on the Northgate Area Benefit District No. 93-1 as previously ordered, and

WHEREAS, on March 16, 1993, the City Council of the City of Vallejo adopted Resolution No. 93-121 N.C. preliminarily approving the Engineer's Report and setting the public hearing for March 30, 1993, and

WHEREAS, on March 19, 1993, notices were sent to all of the affected property owners; on March 18, 1993, notices were posted within the district boundaries; and on March 19, 1993, the notice was published in the Times Herald newspaper in accordance with VMC Section 14.36.080.

WHEREAS, on March 30, 1993, the City Council adopted Resolution No. 93-149 N.C. to continue the public hearing to April 20, 1993, and

WHEREAS, on April 20, 1993, the City Council adopted Resolution No. 93-182 N.C. to continue the public hearing to May 4, 1993, and

WHEREAS, the City Council of the City of Vallejo has closed the public hearing on Northgate Area Benefit District No. 93-1, and

WHEREAS, the City Council of the City of Vallejo has considered all oral statements, all written protests, and communications Page 86 of 325 made or filed by any interested person, and

WHEREAS, meetings have been held with property owners within the proposed district to receive comments on the Engineer's Report, and

WHEREAS, the Engineer's Report has been amended to reflect public input, as summarized on Exhibit "A" attached hereto and made a part hereof, and

WHEREAS, the City Council of the City of Vallejo has determined that a majority protest has not been filed; now, therefore

BE IT RESOLVED that:

SECTION 1. The City Council of the City of Vallejo hereby approves the Engineer's Report as amended.

SECTION 2. The City Council hereby orders the formation of Northgate Area Benefit District No. 93-1.

SECTION 3. The City Council hereby confirms and adopts the Northgate Area Benefit District No. 93-1 Diagram as filed with the City Clerk on March 16, 1993, attached hereto as Exhibit "B" and incorporated herein by reference.

SECTION 4. The City Council hereby confirms and adopts the Benefit Schedule, attached hereto as Exhibit "C" and incorporated herein by reference.

SECTION 5. The City Council hereby directs the City Engineer to develop a method for apportioning the money collected under the Benefit Schedule, including any interest earned on such money, and/or applying any credits to those property owners in the district with whom the City has entered into an agreement relating to the making of advances or construction of the public improvements identified within the Engineer's Report.

SECTION 6. The City Council of the City of Vallejo hereby directs the Finance Director to make the payments in accordance with the method established by the City Engineer, after deducting an administrative fee of 2% from the moneys collected from this benefit district.

SECTION 7. The City Clerk is hereby directed to file for recordation certified copies of the (i) Northgate Area Benefit District No. 93-1 Diagram (Exhibit B) and (ii) Benefit Schedule (Exhibit C) with the Office of the Solano County Recorder.

Fee Schedules for Transportation Improvements and Public Facilities Northgate Area Fee District No. 94-1

I. SUMMARY

Authorization and Purpose

This report has been prepared at the direction of the Vallejo City Council. The purpose of the report is to provide for fee schedules which will generate funds to pay for the cost to construct transportation improvements and public facilities in the Northgate Area.

Basis for Distribution of Cost

The estimated cost to construct the various improvements including incidental expense has been distributed to the properties within the District Boundary according to the estimated benefits to be received respectively by each parcel from the improvements to be constructed with these fees.

Proposed Fee Schedule for Transportation Improvements

Transportation improvements include the widening of Columbus Parkway and Admiral Callaghan Lane and the construction of a park and ride lot. They are estimated to cost \$15.6 million. The estimated cost to improve Columbus Parkway and to construct the Park and Ride access has been distributed to all properties according to the estimated number of peak hour trips that each parcel will generate. The estimated cost of the Park and Ride lot has been distributed to residential properties, only, according to peak hour trips. The estimated cost to construct Admiral Callaghan Lane has been distributed to commercial properties, only, according to direct frontage and peak hour traffic. The recommended fee schedule for Transportation improvements appears as Figure 1.

Proposed Fee Schedule for Public Facilities

Public Facilities to be constructed include the improvement of Rindler Creek, Public Open Space improvements north of Columbus Parkway and Emergency Work performed by the City in order to protect certain properties. These improvements are estimated to cost \$2.6 million. The estimated cost of the Rindler Creek improvements and emergency work have been distributed to the specific parcels benefiting from these improvements. The open space improvements have been distributed to residential neighborhoods according to equivalent units remaining to be constructed. The recommended fee schedule for Public Facilities improvements appears as Figure 2.

District Boundaries

· Bush · March

The Boundary of the proposed Northgate Fee District No. 94-1 includes all those parcels of land located within or adjacent to Specific Plan Area No. 3 covering a portion of the Northeast Quadrant of the City of Vallejo. The proposed boundaries are shown on Figure 3. The District includes all of the lots, pieces and parcels of land within the District Boundary. Parcels with known development plans or with development potential have been numbered from 1 to 24. Single family residential neighborhoods are indicated by letters A through H (excluding G) on Figure 3. Reference has been made to the maps of the County Assessor for the detailed lines and descriptions of these parcels. A table listing the Assessors parcel Book, Page, and parcel numbers is provided on Figure 3.

II. DESCRIPTION OF IMPROVEMENTS

The improvements to be constructed include public transportation, drainage and boulevard landscaping improvements which have been identified as necessary to support the development in the vicinity of the Northgate Area. Also included as fee District improvements are emergency construction measures which were taken by the City of Vallejo to protect existing facilities and for public safety reasons. A map of which identifies the general location of the improvements to be made appears as Figure 12.

Transportation Improvements

Transportation improvements include 1) the widening of Columbus Parkway from Interstate 80 to The Blue Rock Springs Golf Course to two and/or three through lanes in each direction, including the signalization of intersections, construction of storm drains and utilities 2) the improvement of Admiral Callaghan Lane at its intersection with Columbus Parkway and widening approximately 1500 linear feet southerly of Turner Parkway and 3) the construction of a Park and Ride Lot near the intersection of Ascot Parkway and Columbus Parkway including the access road to the proposed facility.

Public Facilities

Public facilities to be constructed with Fee District Revenues include 1) completion of the relocation of Rindler Creek between Admiral Callaghan Lane and Redwood Parkway, 2) Public Open Space Improvements north of Columbus Parkway including access roads and trails and 3) emergency work performed to date by the City of Vallejo Public Works Department.

III. ESTIMATED COST OF IMPROVEMENTS

Summary Cost Estimate

A summary of the total project costs for Transportation and Public Facilities appears as Figure 4. Total transportation improvement costs are estimated at \$15.6 million. Total Public Facilities construction is estimated at \$2.6 million. The summary estimate includes consulting fees necessary for the preparation of this report and previous traffic studies. The estimated total cost of the transportation improvements plus public facilities is \$18.2 million.

Detailed Cost Estimates

Construction cost estimates prepared by the City of Vallejo Public Works Department follow the summary estimates. Estimates are based upon detailed plans for the Phase I Columbus Parkway Improvements and for Admiral Callaghan Lane. Phase 2, Columbus Parkway estimates, park and ride lot estimates and estimates for Public Facilities are based upon conceptual plans only. Accordingly, the actual cost of the improvements to be constructed may exceed the estimates. If revised estimates based upon detailed plans and specifications in the future exceed fee district revenues it may be necessary for the proposed transportation improvements or public facilities to be scaled back or funded by another source.

IV. RATIONALE FOR DISTRIBUTION OF COST

A. <u>Transportation Improvements</u>

A table which indicates data for each developing parcel within the district boundary and the estimated PM peak hour trips that future development on each parcel will generate is included as Figure 5. Parcel data has been obtained from City planning. Trip generation rates per 1000 square feet of commercial and per residential unit have been obtained from the Trip Generation Manual, 4th Edition, published by the Institute of Transportation Engineers. Figure 5 indicates that approximately 79% of the Peak Hour trips will be generated by Commercial properties and 21% by Residential parcels.

1. Park & Ride Lot and Access

The access road to the Park & Ride Lot will also serve the Fire Station water pump station and P.G.& E. Substation. The cost to construct the access road has been distributed to all parcels based upon estimated peak hour traffic.

The Park and Ride Lot will benefit the future residents in the Northgate Specific Plan Area. The cost to construct these facilities is properly distributed to the future dwelling units according to the number of peak hour vehicle trips per dwelling.

Columbus Parkway Improvements

The Columbus Parkway improvements will benefit all of the developing properties within the Northgate Specific Plan area and within the District Boundaries. These improvements will provide for the safe access and egress to and from residences and businesses alike.

Widening and improving Columbus Parkway will provide improved traffic circulation and safety to properties in the Northgate area. Additional lanes will allow traffic to move freely. Intersections, protected left turn pockets and free right turns will improve safety. These benefits are proportionate to the traffic demand that the developing properties will place on these streets. This demand is best measured by peak hour traffic volumes for each parcel. Afternoon or PM volumes have been selected as commercial impact is estimated to be the greatest during this time of day.

3. Admiral Callaghan Lane

Admiral Callaghan Lane is a commercial frontage road. The improvement of this commercial street to City standards will benefit all of the developing commercial (non residential) parcels within the Specific Area plan. The "frontage improvements" required for parcel 1 directly benefits that parcel. These frontage improvements are defined as one traveled 16.5 ft. lane, curb, gutter, sidewalk and planting and irrigation between the sidewalk and the right of way line.

The remaining improvements benefit the commercial/office parcels in proportion to the number of PM peak hour trips that each developing parcel will generate, respectively.

B. <u>Public Facilities</u>

Rindler Creek Improvements

Completion of the relocation of Rindler Creek from its current location south to a new location north of Columbus Parkway will directly benefit the two parcels of land that the creek had encumbered. This creek relocation provides for the development of new pad areas for these parcels. These new pad areas will be proportional to the length of creek relocated. The benefit is therefore proportional to the length of creek relocated on each parcel, respectively.

2. <u>Public Open Space Improvements</u>

Public open space provides recreational and aesthetic benefits to surrounding residential properties. Improvement of these areas will improve the over all quality of life for future residents. All neighborhoods will be constructing open space improvements on their respective parcels. Accordingly, open space improvements south of Columbus Parkway are not included in this fee district. The cost of the open space improvements on the north side of Columbus Parkway, however, is included and has been distributed to the residential units on an equivalent unit basis.

3. <u>Emergency Work</u>

Emergency work has been distributed to the parcels directly benefited by this work. Figure 6 is a spreadsheet which summarizes the distribution of emergency work costs. The items of work identified by letters a through i are described under the Method of Distribution. The location of this work is generally shown on Figure 12. The 72 inch head wall at the Comfort Inn is a part of the Rindler Creek improvement and has been distributed according to the Rindler Creek formula. The 54" head wall on Parcel 1 benefits that parcel. The storm drainage improvements and slide repair to neighborhoods D & E benefit these properties in accordance with the number of lots drained 42 and 274, respectively. The drainage improvements identified as e, f, and h on the spread sheet, benefit the areas which drain to I-80 at Turner Parkway. The benefit is therefore proportionate to the area of the developing parcels which are tributary.

The "K" rails installed in the various residential streets benefit the owners of all of the residential properties. The waterline repairs in Columbus Parkway and erosion control on Neighborhood E benefit that parcel.

V. METHOD OF DISTRIBUTION

The various amounts for each parcel for transportation improvements and for public facilities appear on Figures 7 and 8, respectively. A detailed statement of the formulas used to calculate the various amount of cost to be distributed to each parcel within the Fee District boundaries follows Figure 8.

VI. FEES PER SQUARE FOOT AND PER UNIT

Transportation fees for office and retail commercial use have been calculated on Figure 9. Figure 10 shows the estimated fee per parcel for transportation and public facilities improvements. Fees per parcel are based on an assumed number of square feet of building pads and land use anticipated for each parcel. The actual charge per parcel will be computed by multiplying the fee per square foot by the number of square feet or residential units actually constructed on the site or square foot of existing building being altered or remodeled.

Transportation costs were distributed using all existing and future pad areas within the proposed District Boundary. Fees will be collected from undeveloped pad areas (developing parcels) as well as upon alteration of existing structures. Each structure and unit will only pay this fee once. Since alterations to existing structures are less likely to occur than new development the total Transportation Fee revenue may therefore be less than the total estimated cost of the transportation improvements. Figure 11 shows the estimated shortfall, (if the City does not collect a fee for alteration of existing structures,) to be approximately \$3.5 million dollars.

	Single Family Det.	364	368	23.39		
15		25	25	1.59		
	Multi-family	316	213	13.54		
	Total	1660	1573	100		

- 2. Columbus Parkway (Blue Rock Springs to I-80)
 - a. Distribute to residential and commercial properties according to percentage of new peak hour traffic (PM) that will be generated by each parcel. (Distribute same as for item 1a.)
- Admiral Callaghan Lane
 - a. Frontage Improvements on parcel 1 benefit that parcel.

Distribute 100% to Parcel 1.

b. Remaining improvements to Admiral Callaghan Lane benefit all the undeveloped commercial (non-residential) parcels within the Fee District Boundaries

Distribute to commercial properties according to percentage of new peak hour (PM) traffic that will be generated by each parcel.

Parcel	Vew Peak Hour Trips	Percent
1 2 3 4 5 6 7 8	1,184 365 175 296 163 20 74 16	19.95 6.15 2.95 4.99 2.75 0.34 1.25 0.27 0.32
		4.02

Total	5,935	trips	100	%

B. PUBLIC FACILITIES

1. Rindler Creek Improvements

The Rindler Creek improvements benefits Neighborhood D and parcel 17. The relocation of this drainage facility increases the developable pad area for these two parcels.

Distribute according to the relative length relocated from each parcel.

Parcel	Length(ft)	%
17	3300	80.49
D	800	19.51
Tot	al 4100	100

2. Public Open Space Improvements

Public open space improvements North of Columbus Parkway will benefit all Residential properties. Compute equivalent units for multifamily residential by comparing occupant car ratios (OCR).

Single Family Detached (SFD)

OCR = 2.0

*

2 Story Garden Apt

OCR = 1.3

*

Distribute apts @ 1.3/2.0 = 0.65 equivalent SFD units Total Equiv. Units = 316 X 0.65 = 213

Neighborhood	Equiv. Units	Percen
A B C D E F H 5	80 127 306 173 269 364 25 213	5.14 8.16 19.65 11.11 17.28 23.38 1.61 13.68
Total	1557	100 9

- * Source: Frederick H. Bair, Jr., "Intensity Zoning", PAS No. 314, Chicago, American Society of Planning Officials, 1976
- Emergency work
 - a. Comfort Inn 72" Headwall Distribute the same as Rindler Crk
- b. Cook Property 54" Headwall-100% to Cooke (Pcl 1)
- c. Business Park Erosion Repair-100% to Bus. Pk (pcl 17)
- d. Cost of storm drain & slide repair- Distr. to Nhbrhd D & E.by lots drained, (42 for D & 274 for E) e. Over excavation at Dickerson W. of I-80 *
- f. Reconnect 19" Storm Drain *
- g. K rail for traffic entrl-Distribute to Nbhds ABCDEFH & pel 15 by equivalent units
- h. Tri City fence above Dickerson Wall *
- i. Water line repairs Columbus Pkwy & erosion control 100% to Nbhd E.
 - Distribute to watershed draining under I-80 @ Turner Pkwy

(Refer to Emergency Work Spreadsheet for details)

CONSULTANT FEES

Consultants fees represent consulting engineering costs necessary to develop reports which provide for an equitable distribution of the cost of the various improvements among the benefiting properties.

Distribute to each parcel in proportion to the relative cost of transportation and public facility improvements respectively.

1. Transportation Improvements

The estimated cost of the transportation improvements equals 15,587,404/18,140,839 = 86% of the total cost

2. Public Facility Improvements

Distribute remaining 14% of consultants fees according to proportionate amount of total public facility amount.

RESOLUTION NO. 94-180 N.C.

BE IT RESOLVED by the Council of the City of Vallejo as follows:

WHEREAS, the City Council adopted the Northgate Specific Area Plan (SAP) No. 88-01 in October of 1988 and amended said plan in September of 1989, and

WHEREAS, said SAP contained, among others, the following goals:

- 1. To provide a comprehensive circulation network, including vehicular access and bicycle/pedestrian facilities;
- To provide and maintain public services and facilities in a manner that will not burden the existing level of service of public services and facilities within the City; and
- 3. To provide adequate circulation into the project, so as not to impact the existing housing; and

WHEREAS, said SAP contained, among others, the following conditions:

- The project sponsor shall be responsible for providing all on-site and off-site infrastructure and public improvements required to provide service for the project area;
- 2. The project sponsor shall be solely responsible for the improvement of Columbus Parkway from northern edge of Blue Rock Springs Park to the northerly Ascot Parkway/Columbus Parkway between I-80 and the northerly Ascot Parkway/Columbus Parkway intersection to four lanes as described in the SAP. For the section of Columbus Parkway intersection, the project sponsor shall participate in a benefit district for improvements of six lanes as described in the FSEIR. The City shall determine what type of funding mechanism will be used, which project sponsors and/or property owners shall participate in these improvements, and the timing of these improvements;
- 3. If required by the City, the project sponsor shall participate in a Benefit District to improve that section of Admiral Callaghan Lane that is currently two lanes north of Redwood Parkway; and
- 4. Within three years of adoption of the SAP, the Park and Ride Lot shall be designed and constructed by the project sponsor; and

WHEREAS, the Conditions of Approval for the amended Northgate Tentative Map No. 88-29A approved in October of 1989, reiterated these SAP conditions and added other conditions including the following:

1. All development within the project area may be subject to new and/or additional development fees and taxes as adopted by the City Council; and

WHEREAS, the relevant transportation improvements including potential financing mechanisms are part of the proposed project and/or conditions of approval for the Northgate project which has been analyzed in conformance with CEQA; and

WHEREAS, the project sponsor declared bankruptcy in June of 1992 and is, therefore, unable to fulfill the above mentioned Conditions of Approval; and

WHEREAS, the current Northgate Area property owners have expressed their desire to proceed with the development of their respective parcels; and

WHEREAS, Chapter 3.07 "Transportation Impact Mitigation Fee" of the Vallejo Municipal Code gives the City Council authority to establish fees to provide funding for required transportation facilities within specific areas of the City; and

WHEREAS, on March 1, 1994, the City Council adopted Resolution No. 94-81 N.C. receiving the Engineer's Report and setting the public hearing for March 29, 1994; and

WHEREAS, on March 15, 1994, the City Council adopted Resolution No. 94-101 N.C. resetting the public hearing for April 12, 1994; and

WHEREAS, on March 4, 1994, notices were sent to all of the affected property owners, as well as other interested parties; and

WHEREAS, on March 27, 1994, and on April 1, 1994, the notice was published in the Times Herald newspaper; and

WHEREAS, on April 12, 1994, the City Council held a public hearing on proposed fees; and

WHEREAS, the City Council has considered all oral and written statements made or filed by the affected property owners and other interested persons; and

WHEREAS, the City Council finds and declares that it is in the best interest of the public health, safety and welfare to consider the establishment of fees to complete the transportation improvements within Northgate Area Fee District No. 94-1.

BE IT RESOLVED as follows:

- Section 1. The City Council hereby approves the Engineer's Report on proposed fee schedules for Transportation Improvements in Northgate Area Fee District No. 94-1 dated February 1994, which generally describes the improvements to be constructed or installed and paid for by these fees and the method of determining said fees.
- Section 2. The City Council hereby confirms and adopts the Northgate Area Fee District No. 94-1 diagram as filed with the City Clerk, attached hereto as Exhibit "A" and incorporated herein by reference.
- Section 3. The City Council hereby confirms and adopts the Northgate Transportation Improvements Fee Schedule, attached hereto as Exhibit "B" and incorporated herein by reference.
- Section 4. The City Council hereby authorizes and directs the City Engineer to determine the phasing and implement the construction of improvements funded by these fees.
- Section 5. The City Council authorizes and directs the Finance Director to disburse monies collected from these fees for expenses incurred by the City in administering this Fee District and the construction of these transportation improvements.
- Section 6. The City Council authorizes and directs the City Clerk to file for record certified copies of the (i) Northgate Area Fee District No. 94-1 diagram (Exhibit *A") and (ii) the Transportation Improvements Fee Schedule (Exhibit *B") in the office of the Recorder of Solano County, California.
- Section 7. The City Council hereby directs staff to bring these fees back to the Council within the next five months. The Northgate Transportation Impact Fee Schedule adopted herein shall remain in effect until a replacement funding mechanism has been established and implemented.

ADOPTED by the Council of the City of Vallejo at a regular meeting held on April 26, 1994, by the following vote:

AYES:

Mayor Intintoli, Councilmembers Boschee, Exline,

Hicks, Higgins, Patchell and Villanueva

 2. DUETO AN ERROR IN THE LAND USE ASSUMPTIONS CONTAINED IN THE KENNEDYJEKKSCHILTON REPORT THE ASSESSMENT FOR PARCEL GIS HEREBY REDUCED TO \$18,000.
 3. THE DIFFERENCE BETWEEN SKY VALLEYS (HIDDENBROOKE'S) ASSESSMENT AND SMPROVEMENT COSTS PAID BY SVLP (L. \$1,775) WILL BE PAID WHEN THE DETRICT IS FINALIZED.
 4. SINCE NEIGHBORHOOD "A" IS ALMOST BUILT OUT AND AS A RESULT OF A PREVIOUS AGREEMENT BETWEEN THE CITY AND THE OWNER, THE ASSESSMENTS FOR PARCEL F1 WILL NOT BE COLLECTED.

- 2700. There is hereby established in the State of California a strong-motion instrumentation program for the purpose of administering the program and of acquiring strong-motion instruments and installing and maintaining such instruments as needed in representative geologic environments and structures throughout the state.
- 2701. The division shall organize and monitor the program with the advice of the Seismic Safety Commission.
- 2702. The division shall purchase, install, and maintain instruments in representative structures and geologic environments throughout the state, and shall process the data obtained from such instruments resulting from periodic earthquakes, as deemed necessary and desirable by the Seismic Safety Commission.
- 2703. The division shall maintain and service the strong-motion instruments installed, shall collect and interpret all records from the instruments, and shall make the records, record interpretations, and technical assistance available to the construction industry.
- 2704. It is the intent of the Legislature in enacting this chapter to provide adequate instrumentation throughout California.
- 2705. (a) A city, county, and city and county shall collect a fee from each applicant for a building permit. Each fee shall be equal to a specific amount of the proposed building construction for which the building permit is issued as determined by the local building officials. The fee amount shall be assessed in the following way:
- (1) Group R occupancies, as defined in the California Building Code (Part 2 of Title 24 of the California Code of Regulations), one to three stories in height, except hotels and motels, shall be assessed at the rate of thirteen dollars (\$13) per one hundred thousand dollars (\$100,000), with appropriate fractions thereof.
- (2) All other buildings shall be assessed at the rate of twenty-eight dollars (\$28) per one hundred thousand dollars (\$100,000), with appropriate fractions thereof.
- (3) The fee shall be the amount assessed under paragraph (1) or (2), depending on building type, or fifty cents (\$0.50), whichever is the higher.
- (b) (1) In lieu of the requirements of subdivision (a), a city, county, and city and county may elect to include a rate of thirteen dollars (\$13) per one hundred thousand dollars (\$100,000), with appropriate fractions thereof, in its basic building permit fee for any Group R occupancy defined in paragraph (1) of subdivision (a), and a rate of twenty-eight dollars (\$28) per one hundred thousand dollars (\$100,000), with appropriate fractions thereof, for all other building types. A city, county, and city and county electing to collect the fee pursuant to this subdivision need not segregate the fees in a fund separate from any fund into which basic building permit fees are deposited.
- (2) "Building," for the purpose of this chapter, is any structure built for the support, shelter, or enclosure of persons, animals, chattels, or property of any kind.
- (c) (1) A city, county, and city and county may retain up to 5 percent of the total amount it collects under subdivision (a) or (b) for data utilization, for seismic education incorporating data

interpretations from data of the strong-motion instrumentation program and the seismic hazards mapping program, and, in accordance with paragraph (2), for improving the preparation for damage assessment after strong seismic motion events.

- (2) A city, county, and city and county may use any funds retained pursuant to this subdivision to improve the preparation for damage assessment in its jurisdiction only after it provides the Department of Conservation with information indicating to the department that data utilization and seismic education activities have been adequately funded.
- (d) Funds collected pursuant to subdivisions (a) and (b), less the amount retained pursuant to subdivision (c), shall be deposited in the Strong-Motion Instrumentation and Seismic Hazards Mapping Fund, as created by Section 2699.5 to be used exclusively for purposes of this chapter, Chapter 7.5 (commencing with Section 2621), and Chapter 7.8 (commencing with Section 2690).
- 2705.5. The California Geological Survey shall advise counties and cities as to that portion of the total fees allocated to the Strong-Motion Instrumentation and Seismic Hazards Mapping Fund, so that this information may be provided to building permit applicants.
- 2707. The division, upon advice of the Seismic Safety Commission, whenever it determines that an adequate instrumentation program has been achieved, may reduce the fee levied against building permits as provided in Section 2705 to a level sufficient to maintain the program established pursuant to this chapter.
- 2709. Any city or county that has been exempted from the provisions of Section 2705 by Section 2708 may participate in the state strong-motion instrumentation program by a written request to the State Geologist by the governing body of such city or county that its exemption be rescinded.
- 2709.1. (a) No strong-motion instrumentation shall be installed pursuant to this chapter in the structural types identified in subdivision (b) unless funds proportionate to the construction value as called for under Section 2705 are received from organizations or entities representing these structural types, or the instrumentation is specifically called for by the Seismic Safety Commission in urgency situations.
- (b) The structural types subject to this section include all of the following:
 - (1) Hospitals.
 - (2) Dams.
 - (3) Bridges.
 - (4) Schools.
 - (5) Powerplants.
- (c) The Strong-Motion Instrumentation and Seismic Hazards Mapping Fund may accept funds from sources other than the permit fees identified in this chapter. The priority of installations performed under this chapter shall be determined by the Seismic Safety Commission.

Building Valuation Data – FEBRUARY 2019

The International Code Council is pleased to provide the following Building Valuation Data (BVD) for its members. The BVD will be updated at six-month intervals, with the next update in August 2019. ICC strongly recommends that all jurisdictions and other interested parties actively evaluate and assess the impact of this BVD table before utilizing it in their current code enforcement related activities.

The BVD table provides the "average" construction costs per square foot, which can be used in determining permit fees for a jurisdiction. Permit fee schedules are addressed in Section 109.2 of the 2018 *International Building Code* (IBC) whereas Section 109.3 addresses building permit valuations. The permit fees can be established by using the BVD table and a Permit Fee Multiplier, which is based on the total construction value within the jurisdiction for the past year. The Square Foot Construction Cost table presents factors that reflect relative value of one construction classification/occupancy group to another so that more expensive construction is assessed greater permit fees than less expensive construction.

ICC has developed this data to aid jurisdictions in determining permit fees. It is important to note that while this BVD table does determine an estimated value of a building (i.e., Gross Area x Square Foot Construction Cost), this data is only intended to assist jurisdictions in determining their permit fees. This data table is not intended to be used as an estimating guide because the data only reflects average costs and is not representative of specific construction.

This degree of precision is sufficient for the intended purpose, which is to help establish permit fees so as to fund code compliance activities. This BVD table provides jurisdictions with a simplified way to determine the estimated value of a building that does not rely on the permit applicant to determine the cost of construction. Therefore, the bidding process for a particular job and other associated factors do not affect the value of a building for determining the permit fee. Whether a specific project is bid at a cost above or below the computed value of construction does not affect the permit fee because the cost of related code enforcement activities is not directly affected by the bid process and results.

Building Valuation

The following building valuation data represents average valuations for most buildings. In conjunction with IBC Section 109.3, this data is offered as an aid for the building official to determine if the permit valuation is underestimated. Again it should be noted that, when using this data, these are "average" costs based on typical construction methods for each occupancy group and type of construction. The average costs include foundation work, structural and nonstructural

building components, electrical, plumbing, mechanical and interior finish material. The data is a national average and does not take into account any regional cost differences. As such, the use of Regional Cost Modifiers is subject to the authority having jurisdiction.

Permit Fee Multiplier

Determine the Permit Fee Multiplier:

- 1. Based on historical records, determine the total annual construction value which has occurred within the jurisdiction for the past year.
- 2. Determine the percentage (%) of the building department budget expected to be provided by building permit revenue.

Example

The building department operates on a \$300,000 budget, and it expects to cover 75 percent of that from building permit fees. The total annual construction value which occurred within the jurisdiction in the previous year is \$30,000,000.

Permit Fee Multiplier =
$$\frac{$300,000 \times 75\%}{$30,000,000} = 0.0075$$

Permit Fee

The permit fee is determined using the building gross area, the Square Foot Construction Cost and the Permit Fee Multiplier.

Permit Fee = Gross Area x Square Foot Construction Cost X Permit Fee Multiplier

Example

Type of Construction: IIB

Area: 1st story = 8,000 sq. ft.2nd story = 8,000 sq. ft.

Height: 2 stories

Permit Fee Multiplier = 0.0075

Use Group: B

1. Gross area:

Business = $2 \text{ stories } \times 8,000 \text{ sq. ft.} = 16,000 \text{ sq. ft.}$

2. Square Foot Construction Cost: B/IIB = \$175.70/sq. ft.

3. Permit Fee:

Business = 16,000 sq. ft. x \$175.70/sq. ft x 0.0075 = \$21.084

Page 158 of 325

Important Points

- The BVD is not intended to apply to alterations or repairs to existing buildings. Because the scope of alterations or repairs to an existing building varies so greatly, the Square Foot Construction Costs table does not reflect accurate values for that purpose. However, the Square Foot Construction Costs table can be used to determine the cost of an addition that is basically a stand-alone building which happens to be attached to an existing building. In the case of such additions, the only alterations to the existing building would involve the attachment of the addition to the existing building and the openings between the addition and the existing building.
- For purposes of establishing the Permit Fee Multiplier, the estimated total annual construction value for a given time period (1 year) is the sum of each building's value (Gross Area x Square Foot Construction Cost) for that time period (e.g., 1 year).
- The Square Foot Construction Cost does not include the price of the land on which the building is built. The Square Foot Construction Cost takes into account everything from foundation work to the roof structure and coverings but does not include the price of the land. The cost of the land does not affect the cost of related code enforcement activities and is not included in the Square Foot Construction Cost.

RESOLUTION NO. 95-448 N. C.

SKY VALLEY IMPROVEMENT BENEFIT DISTRICT NO. 95-1

BE IT RESOLVED by the Council of the City of Vallejo as follows:

WHEREAS, the City Council of the City of Vallejo (City Council), previously adopted Resolution No. 95-155 N. C., on April 4, 1995, to initiate proceedings pursuant to Chapter 14.36 of the Vallejo Municipal Code (VMC) for the formation of a local improvement benefit district, designated Sky Valley Improvement Benefit District No. 95-1 (the District); and

WHEREAS, it is the intent of said benefit district to provide the means whereby, upon entering into an agreement for reimbursement with the City of Vallejo, certain land owners within the district as well as the City may advance the full cost of public improvements that will benefit neighboring lands in the district with assurance that reimbursement on an equitable basis will be forthcoming in accordance with VMC, Chapter 14.36; and

WHEREAS, the City Council has received and considered the report prepared by the Public Works Director on the Benefit District No. 95-1 as previously ordered; and

WHEREAS, on August 22, 1995, the City Council adopted Resolution No. 95-338 N. C. preliminarily approving the Engineer's Report and setting the public hearing for September 26, 1995; and

WHEREAS, on August 31, 1995, notices were posted within the district boundaries; on August 30, 1995, notices were sent to all of the affected property owners; and on August 25 and 30, 1995, the notice was published in the <u>Times Herald</u> newspaper in accordance with VMC, Section 14.36.080; and

WHEREAS, on September 26, 1995, the City Council heard the matter and adopted Resolution No. 95-382 N. C. to continue the public hearing to October 24, 1995; and

WHEREAS, on October 24, 1995, the City Council adopted Resolution No. 95-426 N. C. to continue the public hearing to November 14, 1995; and

WHEREAS, the City Council has considered all oral statements, all written protests, and all other communications made or filed by the affected property owners and other interested persons; and

WHEREAS, meetings have been held with property owners within the proposed district to receive comments on the Engineer's Report; and

WHEREAS, the Engineer's Report has been amended to reflect public input, attached hereto as Exhibit "A", attached hereto and made a part hereof; and

WHEREAS, the City Council has determined that a majority protest has not been filed; now, therefore,

RESOLUTION NO. 95-448 N.C. Page 2.

BE IT RESOLVED that the City Council hereby takes the following actions in this matter:

- approves the Engineer's Report, as amended;
- 2. orders the formation of Sky Valley Improvement Benefit District No. 95-1;
- 3. confirms and adopts the Amended Sky Valley Improvement Benefit District No. 95-1 Diagram as filed with the City Clerk on November 3, 1995, attached hereto as Exhibit "B" and incorporated herein by reference;
- 4. confirms and adopts the Benefit Schedule, attached hereto as Exhibit "C" and incorporated herein by reference;
- 5. authorizes and directs the Public Works Director to develop a method for apportioning the money collected under the Benefit Schedule, including any interest earned on such money;
- 6. authorizes and directs the Finance Director to make the payments in accordance with the method established by the Public Works Director, after deducting an administrative fee of two percent (2%) from the monies collected from this benefit district;
- 7. authorizes and directs the City Clerk to file for record certified copies of the (i) Amended Sky Valley Improvement Benefit District No. 95-1 Diagram (Exhibit "B") and (ii) Benefit Schedule (Exhibit "C") in the Office of the Recorder of Solano County, California.

ADOPTED by the Council of the City of Vallejo at a regular meeting held on November 14, 1995, by the following vote:

AYES:

Mayor Intintoli, Councilmembers Boschee, Exline, Hicks,

Higgins, Patchell and Villanueva

I HEREBY CERTIFY that the enclosed Amended Benefit Schedule was filed with the County Recorder of the County of Solano, California on the 27th day of 1000 1995

Allison Villarante, City Clerk

City of Vallejo

I, John H. Duane, Public Works Director and Engineer of Work for the Sky Valley Improvement Benefit District No. 95-1 City of Vallejo, California make this amended report, as directed by the City Council, pursuant to Chapter 14.36 of the Vallejo City Code.

The improvements which are the subject of this amended report are briefly described as follows:

The construction of the offsite water improvements to serve the Sky Valley Specific Plan Area and several developments within the Northeast Quadrant of Vallejo which would benefit from these new water improvements between the Fleming Hill Water Treatment Plant and Sky Valley.

The original report has been amended to delete NDS Parcels C-3, C-4 and C-5 from the District because Assessment District No. 58, formed in 1982, provided all of the potable water required for these lots. NDS Parcel C-6 was added to the District because this parcel was inadvertently left out of the original Engineer's Report. In addition, the original report was amended to correct Parcels F-11, F-10 and F-9 water consumption amounts which were based on erroneous information.

The offsite water improvements consist of two phases, Phase A and Phase B.

Phase A:

Phase A is a 24-inch diameter waterline from the Fleming Hill Water Treatment Plant traversing along the southerly side of Highway 37 to Sage Street then along Sage Street to Griffin Drive then follows Griffin Drive to Carnival Court stopping at the west side of Interstate 80 (see segments 1, 3, 4A, 4B, 4C on Figure 1).

Phase B:

Phase B is a 24- or 18-inch diameter waterline starting at the ending of Phase A then under Interstate 80 through an open field to the City's access road to the 6 MG Reservoir, along the access road to the intersection of Columbus Parkway and Admiral Callaghan Lane, then along Columbus Parkway to St. John's Mine Road (see segments 5, 6, 7 and 8 on Figure 1). Also included in Phase B is the Columbus Parkway pump station at the intersection of Columbus Parkway and Ascot Parkway.

This report consist of the following parts:

PART A - Plans and specifications for the improvements constructed have been filed separately with the City Clerk and are included in this report by reference.

PART B - An amended diagram showing all of the parcels of real property within this

benefit district. The diagram is keyed to the Benefit Schedule (Part D) by reference number.

PART C - Cost of the improvements.

PART D - Amended Benefit Schedule which states the amounts to be charged to each parcel within this benefit district.

PART E - A statement of the method by which the undersigned has determined the amount proposed to be distributed to each parcel including cost spread formulas and spreadsheets.

Respectfully submitted

ohn H. Duane

Public Works Director/Engineer of Work

PART A

PLANS AND SPECIFICATIONS FOR THE IMPROVEMENTS

A list of the plans and specifications for the improvements follows this page. The plans and specifications for the work have been filed separately with the City Clerk and are included herein by reference. The plans and specifications are not detailed, but are sufficient to show or describe the general nature, location, and extent of the improvements. See Figure 1: Sky Valley Improvement Benefit District Facilities Map.

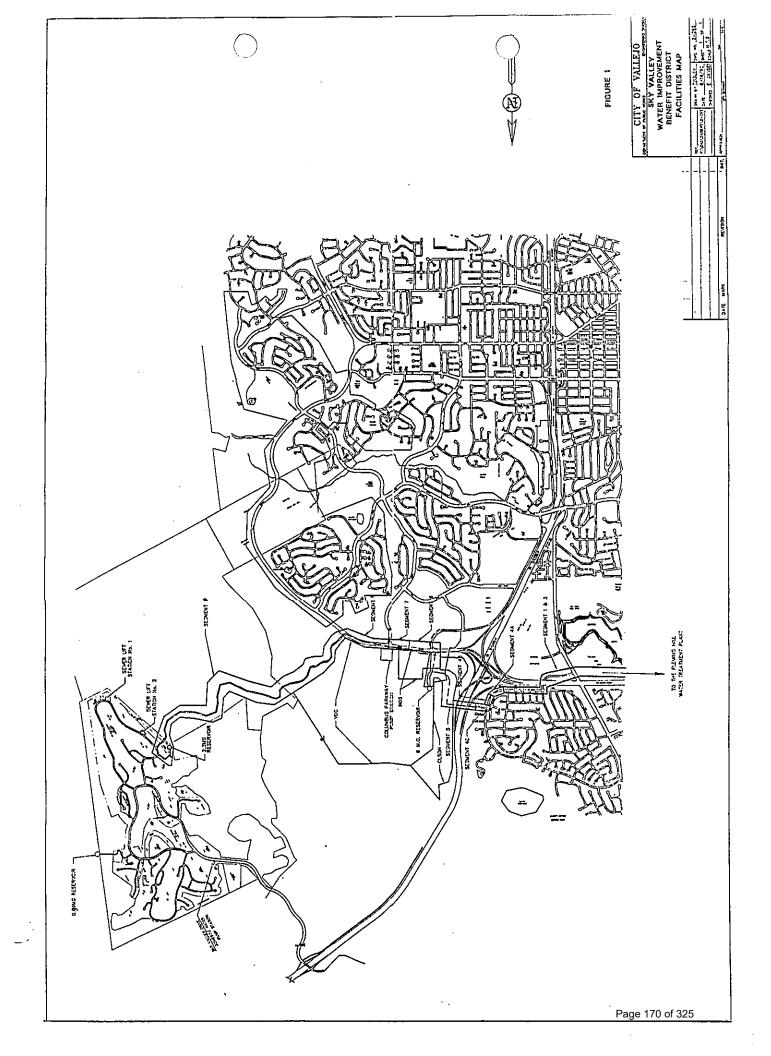

LIST OF PLANS AND SPECIFICATIONS FOR THE IMPROVEMENTS

1. PHASE A

- A. Fleming Hill Waterline Segment 1 waterline improvement plans prepared by Northpoint Engineers approved June 20, 1989.
- B. Sage Street and Griffin Drive Waterline Segment 3 waterline improvement plans prepared by Northpoint Engineers approved May 22, 1990.
- C. Griffin Drive and Carnival Court Waterline Segments 4A, 4B, and 4C waterline improvement plans prepared by Bissell and Karn, Inc. approved September 28, 1988.

PHASE B

- A. Columbus Parkway Waterline Segments of a portion of 5, 6, 7 and 8 waterline improvement plans prepared by Brian Kangas Foulk approved May 1, 1990.
- B. 6 MG Reservoir Waterline Segment of a portion of 5 waterline improvement plans prepared by Brian Kangas Foulk approved December 1989.
- C. Columbus Parkway pump station grading and improvement plans prepared by Brian Kangas Foulk approved January 25, 1991.

PART B

DIAGRAM

A reduced print of the amended diagram for the Sky Valley Improvement Benefit District No. 95-1 follows this page. The full size amended diagram is included in the original report and is on file with the City Clerk and will be recorded with the Solano County Recorder's Office. Each parcel within the District boundary has been given a distinct letter. The letter has been keyed to the County Assessor's Parcel Book, Page and Parcel Number in Part D of this report. Reference is made to the County Assessor's Maps for the lines and dimensions of the various parcels within the District.

- 1. TOTALS DO NOT MATCH TOTALS OF BENEFIT SCHEDULE BY DEVEVELOPMENT DUE TO ROUND OFF ERRORS.
- 2. DUE TO AN ERROR IN THE LAND USE ASSUMPTIONS CONTAINED IN THE KENNEDY/JENKS/CHILTON REPORT THE
- ASSESSMENT FOR PARCEL CS IS HEREBY REDUCED TO \$8,910.

 3. THE DIFFERENCE BETWEEN SKY YALLEY'S (HODENBROOKE'S) ASSESSMENT AND IMPROVEMENT COSTS PAID BY SVLP (i.e. \$3,775) WILL BE PAID WHEN THE DISTRICT IS FINALIZED.

 4. SINCE NEIGHBORHOOD "A" IS ALMOST BUILT OUT AND AS A RESULT OF A PREVIOUS AGREEMENT BETWEEN THE
- CITY AND THE OWNER, THE ASSESSMENTS FOR PARCEL F1 WILL NOT BE COLLECTED.

BUILDING STANDARDS COMMISSION

2525 Natomas Park Drive, Suite 130 Sacramento, California 95833 (916) 263-0916 FAX (916) 263-0959

BUILDING STANDARDS BULLETIN 08-01

DATE: OCTOBER 30, 2008

TO: CITY, COUNTY, AND CITY AND COUNTY JURISDICTIONS

SUBJECT: Chapter 719, Statutes of 2008 (Senate Bill No. 1473, Calderon)

On September 30th of this year Governor Schwarzenegger signed SB 1473 into law. It will take effect on January 1, 2009. Among other things, the bill provides for the creation of the Building Standards Administration Special Revolving Fund, which is established in the State Treasury. Moneys deposited in this fund will come from a surcharge on both residential and non-residential building permits.

The bill requires that each city, county, and city and county collect a fee from an applicant for a building permit, assessed at the rate of four dollars (\$4) per one hundred thousand dollars (\$100,000) in valuation, with appropriate fractions thereof, but not less than one dollar (\$1). "Appropriate fractions thereof" is interpreted to be \$1 per every twenty-five thousand (\$25,000) in valuation per table illustrated below. Fees will be submitted quarterly to the California Building Standards Commission (CBSC), as follows:

Fee:
\$1 \$2
\$3
\$4

Every \$25,000 or fraction thereof above \$100,000 add \$1

In addition, SB 1473 provides that the city, county, or city and county may retain up to ten (10) percent of the fees collected for related administrative costs and for code enforcement education. The bill requires that the local jurisdiction transmit the remainder to CBSC for deposit in the Building Standards Administration Special Revolving Fund.

Once appropriated, moneys deposited in this fund will be available to CBSC, the Department of Housing and Community Development, and the Office of the State Fire Marshal for expenditure in carrying out the provisions of the State Building Standards Law and provisions of State Housing Law that relate to building standards. Emphasis is to be placed on the development, adoption, publication, updating, and educational efforts associated with green building standards.

Notification that the first quarter's fees will be due on April 15, 2009, and a reporting form for the first quarter beginning January 1, 2009, and ending March 31, 2009, will be distributed to each city, county, and city and county, and placed on CBSC's website at www.bsc.ca.gov in the first part of 2009. If you have any questions concerning this bulletin, please contact Jane Taylor, Senior Architect, by telephone at (916) 263-0807, or via email at Jane.Taylor@dgs.ca.gov.

Introduction

This guide is provided by the California Building Standards Commission (CBSC) for the purpose of clarifying the requirements and processes in state law and regulations for cities, counties, and cities and counties to collect a permit surcharge fee for remittance to the CBSC when issuing permits to construct buildings, or add to or alter existing buildings.

Legislative Background

The California legislation that created the requirement for the permit surcharge fee was Senate Bill 1473 of 2008 (Chapter 719, Statutes of 2008). It added new Sections 18931.6 and 18931.7 to the Health and Safety Code. These two sections of state law are provided in Appendix 1 located at the back of this guide. Health and Safety Code Section 18931.7 has been amended twice by legislation, most recently by AB 341 (Chapter 585, Statutes of 2013).

The legislative purpose for establishing the permit surcharge fee is stated in Health and Safety Code Section 18931.7, which is to fund the activities of the CBSC, Department of Housing and Community Development (HCD), and Office of the State Fire Marshal (SFM), in carrying out the mandates in the California Building Standards Law (Health and Safety Code, Division 13, Part 2.5), and State Housing Law (Health and Safety Code, Division 13, Part 1.5), relating to building standards. Section 18931.7 reads in part:

"...emphasis placed on the development, adoption, publication, and updating of green building standards, the updating of verification guidelines for Tier 1 or Tier 2 green building standards and educational efforts, including, but not limited to, training for local building officials associated with green building standards."

Reference Building Standards Bulletin 08-01, located at www.bsc.ca.gov/SB 1473.

Implementing Regulations

To implement the requirements of the cited Health and Safety Code provisions, the CBSC adopted implementing regulations beginning with Section 1-501 in Article 5 of Chapter 1, of Part 1, California Administrative Code, Title 24, California Code of Regulations. The regulations are provided in Appendix 2 located at the back of this guide.

Principle Requirements

The state law and regulations referenced previously include the following requirements:

- 1. Every California city, county, or city and county building department is required to collect and remit the required permit surcharge fee to the CBSC.
- 2. The permit surcharge fee shall be levied on permits required for all disciplines subject to the California Building Standards Code in Title 24, California Code of Regulations, including but not limited to, building, electrical, mechanical and plumbing, and for which a valuation is made. The fee applies to new construction and the addition or alteration of existing buildings. Reference Section 1-505(a) provided in Appendix 2.
- 3. Calculate the permit surcharge fee as required by Section 1-505 (b), Fee Assessment, which reads:

Fees are assessed at a rate of \$4 per \$100,000 of permit valuation, but not less than one dollar, with appropriate fractions thereof shown in the following table:

PERMIT VALUATION	FEE
\$1-25,000	\$1
\$25,001 – 50,000	\$2
\$50,001 - 75,000	\$3
\$75,001 – 100,000	\$4
Every \$25,000 or fraction thereof above \$100,000	Add \$1

For the complete text of Section 1-505, refer to Appendix 2. Also, see the Fee Calculation Examples beginning on page 4 of this guide.

- 4. Each city, county, and city and county may retain up to 10 percent of the collected permit surcharge fee to cover the cost of administration, code enforcement and education as permitted by Health and Safety Code Section 18931.6.
- 5. Submit the permit surcharge fee, less the allowed administrative fee up to 10 percent, to the CBSC each quarter by the fifteenth (15th) day of the following month. Submit only whole dollar amounts to the CBSC, not fractional parts of a dollar. Make checks payable to the "California Building Standards Commission."

Submittal schedule:

Quarter	Due Date
January 1 through March 31	April 15
April 1 through June 30	July 15
July 1 through September 30	October 15
October 1 through December 31	January 15

6. The permit surcharge fee check must be accompanied by the <u>Fee Report Form (BSC-2)</u>. See Appendix 3 for a sample of the form.

After the jurisdiction's initial submittal, a <u>Contact Information Form (BSC-3)</u> is only required when a change to the submitting agency's information has occurred. See Appendix 4 for a sample of the form.

Note: Both of these forms are available at the CBSC Website: www.bsc.ca.gov.

7. Submit the completed form(s) and permit surcharge fee to the:

California Building Standards Commission 2525 Natomas Park Drive, Suite 130 Sacramento, CA 95833

The completed form(s) and permit surcharge fee <u>must be submitted together</u>. Facsimiles and e-mailed forms are not acceptable for purposes of filing.

Fee Calculations

Fees shall be calculated at a rate of \$4 per \$100,000 of permit valuation, but not less than one dollar, with appropriate fractions thereof, as follows:

PERMIT VALUATION	FEE
\$1-25,000	\$1
\$25,001 - 50,000	\$2
\$50,001 - 75,000	\$3
\$75,001 - 100,000	\$4
Every \$25,000 or fraction thereof above \$100,000	Add \$1

Examples

- 1) For a permit valuation of \$14,120
 - The permit valuation fee is \$1.00 for every \$25,000 or fraction thereof
 - Therefore, the total surcharge fee is \$1.00

Valuation: \$14,120	Calculation	Surcharge Fee
	First \$25,000 or fraction thereof	\$1.00

- 2) For a permit valuation of \$38,311
 - The permit valuation fee requires \$1.00 for the first \$25,000, plus \$1.00 for the remaining amount of \$13,211
 - The total surcharge fee is \$2.00

Valuation: \$38,311	Calculation	Surcharge Fee
	First \$25,000	\$1.00
	Remaining amount of \$13,211	\$1.00
	Total Permit Surcharge Fee	\$2.00

- 3) For a permit valuation of \$1,000,000
 - The permit valuation fee requires \$4 for the first \$100,000 of valuation, plus \$1 for each additional \$25,000
 - \$1,000,000 less the first \$100,000 is \$900,000
 - \$900,000 divided by \$25,000 equals \$36
 - The total surcharge fee is \$40

Valuation: \$1,000,000	Calculation	Surcharge Fee
	First \$100,000	\$4.00
	Remaining \$900,000 ÷ \$25,000	\$36.00
	Total Permit Surcharge Fee:	\$40.00

4) For a permit valuation of \$12,326,465

- The permit valuation fee requires \$4 for the first \$100,000 of valuation, plus \$1 for each additional \$25,000 of valuation or fraction thereof
- \$12,326,465 less \$100,000 equals \$12,226,465
- \$12,226,465 divided by \$25,000 equals \$489
- The remaining amount of \$1,455 requires the \$1 fee amount
- The total surcharge fee is \$494.00

Valuation: \$12,326,465	Calculation	Surcharge Fee
	First \$100,000	\$4.00
	\$12,326,465 - \$100,000 = \$12,226,465	
	\$12,226,465 ÷ \$25,000 = \$489	\$489.00
	Remaining amount \$1,455	\$1.00
	Total Permit Surcharge Fee:	\$494.00

The calculated fee to be submitted to the CBSC must be rounded up to the next whole dollar. Remit only whole dollar amounts to CBSC.

After calculating the permit surcharge fee, use this table to assist in verifying that the calculation is accurate.

If the Valuation Ranges:	Your Calculated Fee should be:
From \$100,000 to \$250,000	From \$4 to \$10
From \$250,000 to \$500,000	From \$10 to \$20
From \$500,000 to \$1,000,000	From \$20 to \$40
From \$1,000,000 to \$1,500,000	From \$40 to \$60
From \$1,500,000 to \$2,000,000	From \$60 to \$80
From \$2,000,000 to \$5,000,000	From \$80 to \$200
From \$5,000,000 to \$10,000,000	From \$200 to \$400
From \$10,000,000 to \$20,000,000	From \$400 to \$800
From \$20,000,000 to \$30,000,000	From \$800 to \$1,200
From \$30,000,000 to \$40,000,000	From \$1,200 to \$1,600
From \$40,000,,000 to \$50,000,000	From \$1,600 to \$2,000
From \$50,000,000 to \$70,000,000	From \$2,000 to \$2,800

Reminder: Be sure to deduct your jurisdiction's 10 percent on the Fee Report form before sending payment to CBSC.

Frequently Asked Questions

1. What is SB 1473 and what is the money for?

Senate Bill 1473, Statutes of 2008 (Calderon), was enacted to require a surcharge on building permits in order to provide funds for the CBSC, HCD and SFM to use in carrying out the mandates of the California Building Standards Law and of State Housing Law relating to building standards. See the Health and Safety Code Sections in Appendix 1. Also see the discussion on page 1 of this guide regarding Legislative Background.

2. How is the permit surcharge fee calculated?

Refer to the explanation and examples provided in Fee Calculation Examples on pages 4 and 5 of this guide and Section 1-505(b) of Title 24 available in Appendix 2.

3. Must the Fee Report Form accompany the check?

Yes! The completed and signed Fee Report Form (BSC-2) must be mailed with the check for a number of important reasons:

- The Fee Report Form indicates who reviewed and approved each quarterly submittal, and the signature certifies that the permit surcharge fee assessed is true, correct and complete to the best of the signatory's knowledge and belief.
- The Fee Report Form provides data that ensures that the permit surcharge fee amount will be applied to the correct city, county, or city and county and for the appropriate quarter by CBSC staff.
- The Fee Report Form provides an easy means to update contact information in the event of personnel changes at a jurisdiction.

4. When are the permit surcharge fees due?

The permit surcharge fees and Fee Report Form (BSC-2) are due on the fifteenth (15th) day of the month following the end of each reporting quarter as shown in the table on page 3. See the discussion items 5 and 6 on pages 2 and 3 of this guide.

5. The person who handles our fee report has changed jobs. What do we do?

Download a Contact Form (BSC-3) from our website (<u>www.bsc.ca.gov</u>) and submit it via email, fax or US mail.

6. How do we explain this permit surcharge to our constituents when we add it to a permit fee?

See the Legislative Background discussion on page 1 of this guide. We recommend that local jurisdictions create an explanatory document for the public and provide it as a counter handout.

In brief, the fee was established by the legislature to fund the adoption, publication and educational efforts associated with building standards with an emphasis on green building standards.

7. We have overlooked a reporting quarter. What should we do now?

If a city, county, or city and county overlooks a reporting quarter(s), a Fee Report Form for each past due quarter must be completed and submitted with the respective fees. However, the past and current quarterly fees may be paid in one check payable to the CBSC. See example below:

Past Due Quarters	Current Quarter	Fee Report Required	Fees (less 10%)	Check Total
Jan-Mar 2017		Х	\$4560	
Apr-June 2017		Х	\$7420	
	Oct-Dec 2017	Х	\$3680	
				\$15,660

8. Can one check be submitted for multiple quarterly reports?

Yes! See answer to Question 7 above.

9. Why are we allowed to keep 10%?

The 10 percent deduction is an allowance to cover your costs for billing, tracking, reporting and submitting the fees to CBSC.

10. Can we contact the CBSC with questions regarding the fee calculation and reports?

Yes! Contact the CBSC Fund Administrator at (916) 263-0916 or by email at CBSC@dgs.ca.gov. The Fund Administrator is available to assist with questions regarding permit surcharge fees and related forms.

Appendix 1: State Law Regarding the Permit Surcharge Fee

Health and Safety Code Section 18931.6.

- (a) Each city, county, or city and county shall collect a fee from any applicant for a building permit, assessed at the rate of four dollars (\$4) per one hundred thousand dollars (\$100,000) in valuation, as determined by the local building official, with appropriate fractions thereof, but not less than one dollar (\$1).
- (b) The city, county, or city and county may retain not more than 10 percent of the fees collected under this section for related administrative costs and for code enforcement education, including, but not limited to, certifications in the voluntary construction inspector certification program, and shall transmit the remainder to the commission for deposit in the Building Standards Administration Special Revolving Fund established under Section 19831.7.
- (c) The commission may reduce the rate of the fee upon determining that a lesser amount is sufficient to maintain the programs established under this part. (Added by Stats. 2008, Ch. 719, Sec. 3. Effective January 1, 2009.)

Health and Safety Code Section 18931.7.

- (a) All funds received by the commission under this part shall be deposited in the Building Standards Administration Special Revolving Fund, which is hereby established in the State Treasury.
- (b) Moneys deposited in the fund shall be available, upon appropriation, to the commission, the department, and the Office of the State Fire Marshal for expenditure in carrying out the provisions of this part, and the provisions of Part 1.5 (commencing with Section 17910) that relate to building standards, as defined in Section 18909, with emphasis placed on the development, adoption, publication, and updating of green building standards, the updating of verification guidelines for Tier 1 or Tier 2 green building standards and educational efforts, including, but not limited to, training for local building officials associated with green building standards.

(Amended by Stats. 2013, Ch. 585, Sec. 3. Effective January 1, 2014.) (Amended by Stats. 2009, Ch. 140, Sec. 108. Effective January 1, 2010.) (Added by Stats. 2008, Ch. 719, Sec. 3. Effective January 1, 2009.)

Appendix 2: CBSC Regulations to Implement the Permit Surcharge Fee Law

Title 24, Part 1, Chapter 1, Article 5

CITY, COUNTY, AND CITY AND COUNTY BUILDING PERMIT FEES

1-501. Purpose. This article establishes regulations for implementation of Health and Safety Code Section 18931.6 and 18931.7, to require a surcharge on building permits in order to provide funds, upon appropriation, for the California Building Standards Commission, Department of Housing and Community Development and Office of the State Fire Marshal to use in carrying out the provisions of California Building Standards Law and of State Housing Law relating to building standards, with emphasis placed on the adoption, publication and educational efforts associated with green building standards. The fees are to be collected by cities, counties, and cities and counties and transmitted to the California Building Standards Commission. The fees are based on building permit valuation.

1-503. Definitions. The words defined in this article shall have the meaning stated therein throughout California Code of Regulations, Title 24, Part 1, Chapter 1, Article 5.

- (a) Building Standards Administration Special Revolving Fund (the Fund). The fund established in the State Treasury to receive funds submitted by the Commission pursuant to the provisions of Health and Safety Code Section 18931.6 and this article.
- (b) Department. The Department of Housing and Community Development.
- (c) Fees, appropriate fractions thereof. Fee increments for permit values less than one hundred thousand dollars (\$100,000) as described in Section 1-505.
- (d) Office. The Office of the State Fire Marshal.

1-505. Fee assessment.

- (a) Fees shall be levied on building permits required for all disciplines covered by Title 24, including, but not limited to, building, electrical, mechanical and plumbing, and for which a valuation is made.
- (b) Fees are assessed at a rate of \$4 per \$100,000 of permit valuation, but not less than one dollar, with appropriate fractions thereof shown in the following table:

PERMIT VALUATION	FEE
\$1 – 25,000	\$1
\$25,001 – 50,000	\$2
\$50,001 – 75,000	\$3
\$75,001 – 100,000	\$4
Every \$25,000 or fraction thereof above \$100,000	Add \$1

- 1. Cities, counties, and cities and counties may retain up to ten percent (10%) of the fees for related administrative costs, code enforcement, and education as permitted by Health and Safety Code Section 18931.6.
- 2. Cities, counties, and cities and counties may exempt from fee assessment permits for which no valuation is made.
- (c) The Commission may reduce the rate of the fee by regulation upon determination that a lesser fee is sufficient to carry out the programs of the Commission, the Department and the Office. The Commission may establish a termination date or duration for the fee reduction period.

1-507. Fee collection.

- (a) Cities, counties, and cities and counties shall submit fees each quarter, commencing with the quarter beginning January 1 and ending March 31, 2009, due on the fifteenth day of the following month.
 - 1. Each quarter, a city, county, and city and county shall submit a Fee Report Form (BSC-2), Contact Information Form (BSC-3), and a check made payable to the California Building Standards Commission, with the fees collected for that quarter.

Note: The form templates are available for downloading at the Commission's website at http://www.bsc.ca.gov/.

(b) The Commission shall deposit the moneys collected into the Building Standards Administration Special Fund for use, upon appropriation, by the Commission, the Department, and the Office for use as specified in Section 1-501.

Authority: Health and Safety Code Sections 18909(c), 18929, 18930.5, 18931.6 and 18931.7 Reference: Health and Safety Code Sections 18930.5, 18931.6 and 18931.7 HISTORY:

1. (BSC 02/08) Add new Article 1-10, City, County, and City and County Building Permit Fees. Effective on June 21, 2009.

RESOLUTION NO. 19-047 N.C.

ESTABLISHING NEW FEES AND CHARGES FOR GOODS, SERVICES AND FACILITIES PROVIDED BY THE CITY AND AMENDING AND RESTATING THE CITY'S MASTER FEE SCHEDULE

WHEREAS, the City of Vallejo ("City") is empowered to impose reasonable fees, rates, and charges for municipal services. California Government Code Section 66000 et seq. authorizes the City to adopt fees for municipal services, provided such fees do not exceed the cost to the City for providing the services. The City periodically amends and updates its Master Fee Schedule to account for the various cost increases relating to municipal programs, services and activities; and

WHEREAS, the Council of the City of Vallejo has determined that in order to continue providing effective services for the public welfare, the City must establish and increase or decrease fees for certain municipal services which accurately reflect the City's true cost in providing such services; and

WHEREAS, the Council desires to enact some new fees and increase, decrease, remove, or leave unchanged existing fees for certain services and programs provided by the City and to include the new, increased, decreased, or unchanged fees in the Master Fee Schedule, as attached to this Resolution as Attachment 1 and Attachment 2 and incorporated into it by this reference; and

WHEREAS, the City has conducted an extensive analysis of its services, the costs reasonably borne by the City in providing its services, the beneficiaries of such services, and the revenues produced by those paying fees and charges for such services. The City retained an independent consultant, MGT of America Consulting ("MGT"), to conduct the analysis of the City's services and related costs. MGT collected data and interviewed City personnel as part of that analysis. City departments have reviewed the fee schedule and made certain recommendations. MGT completed that certain User Fee Study Final Report dated April 2019. The Study is on file with the City Finance Department and is incorporated by this reference. The Study sets forth a mechanism to ensure that fees adopted by the City do not exceed the reasonable estimated cost for providing the services for which the fees are charged; and

WHEREAS, pursuant to Government Code Sections 66014, 66017, and 66018, the specific fees to be charged for certain services must be adopted by resolution, following notice and public hearing; and

WHEREAS, pursuant to California Government Code Section 66016, this City Council has held at least one public hearing and received oral and written presentations thereat with respect to "user fees" prior to the adoption of this Resolution; and

WHEREAS, pursuant to California Government Code Section 66018, this City Council has conducted and concluded a duly noticed public hearing with respect to the rates, fees, and charges prior to the adoption of this Resolution; and

WHEREAS, the departments have reviewed the fees charged for such services, and with the approval of the City Manager, recommend the adoption of certain fees; and

WHEREAS, based upon all written and oral reports and presentations to Council, including the

Agenda Report and each of the Attachments thereto, the City Council finds and determines that the proposed modifications and additions to the Master Fee Schedule set forth herein are necessary to reimburse the City for the costs of performing the various municipal and regulatory functions, and that these fees do not exceed the proportional cost of the service or benefit attributable to the fee payer.

NOW, THEREFORE, BE IT RESOLVED THAT THE CITY COUNCIL OF THE CITY OF VALLEJO, CALIFORNIA, DOES HEREBY DECLARE, FIND, DETERMINE AND ORDER AS FOLLOWS:

- SECTION 1. Notice of the public meeting and public hearing at which this Resolution was considered was properly given, and all oral and written presentations made to and heard by the City Council were properly considered under California Government Code Sections 66016 and 66018.
- Pursuant to Government Code Sections 66014, 66017 and 66018, the specific fees to be charged for certain regulations, services and products must be adopted by resolution, following notice and public hearing.
- The cost estimates produced by City staff and considered by the City Council in establishing fees under this Resolution are reasonable cost estimates for the provision of the City services to which the fees pertain and were made available to the public under Government Code Section 66016.
- This City Council hereby finds and determines that based upon the data, information, analysis, oral and written documentation presented to this City Council concerning the rates, fees, surcharges, and charges described in "Attachment 2" and "Attachment 3" attached hereto and by this reference incorporated herein, the rates, fees, surcharges, and charges set forth in said "Attachment 2" and "Attachment 3" do not exceed the established reasonable cost of providing the service for which the rates, fees, surcharges, or charges are levied.
- The rates, fees, surcharges, and charges set forth in "Attachment 2" and "Attachment 3" are hereby adopted and approved as the rates, fees, surcharges, and charges for the services identified for each such rate, fee, surcharge, and/or charge.
- SECTION 6. The rates, fees, and charges set forth in "Attachment 2" and "Attachment 3" shall be effective and shall be implemented commencing August 1, 2019.
- **SECTION 7.** FLAT FEES Where applicable, flat fees have been established for certain services where the average cost is subject to minimum fluctuation. These flat fees are included on schedules incorporated into this resolution.
- SECTION 8. HOURLY CHARGES Where applicable, hourly charges shall be accumulated for development processing activities and the applicant shall pay all such costs prior to final action on the related project or as soon thereafter as such costs may be finally determined. The payment of such costs may be a condition of approval for any such application. If payment is not received within 7 working days after the invoice due date, all development processing activities will be

suspended until payment is received.

- DEPOSITS In cases where an hourly rate is being charged, as opposed to a flat fee, each applicant shall place on deposit with the City the sum of one-half of the estimated total fees. Deposits have been estimated to represent the minimum amount required to process each case type. The costs of an individual case may be significantly more than the initial deposit amount. Costs will be charged against the deposit until the development case deposit balance is less than ten percent (10%) of the total estimated cost at which time the applicant will be required to post an additional deposit equal to the estimated remaining fees. The applicant shall submit the additional deposit within 10 days of notice. If payment is not received within 10 working days after the notice, the City has the right to stop all development processing activities until payment is received. Any charges incurred in excess of the total deposits will be due prior to issuance of building permits. A late fee of ten percent (10%) shall be levied against delinquent development processing charges.
- SECTION 10. REFUNDS If the amount on deposit pursuant to Section 9 exceeds all accumulated costs at the time of the final action on subject application, the excess deposit shall be refunded to the applicant.
- SECTION 11. The surcharges set forth in "Attachment 2" are hereby adopted and incorporated into the City's fee schedule as shown in Attachment 2.
- SECTIION 12. GENERAL PLAN SURCHARGE The General Plan Surcharge shall be five percent (5%) and shall be applied to all Building and Planning fees, except those fees prohibited by state law.
- **SECTION 13.** TECHNOLOGY SURCHARGE The Technology Surcharge shall be four percent (4%) and shall be applied to all Building, Planning and Engineering fees, except those fees prohibited by state law.
- SECTION 14. PERMIT STREAMLINING SURCHARGE The Permit Streamlining Surcharge shall be three percent (3%) and shall be applied to all Building, Planning and Engineering fees, except those fees prohibited by state law.
- **SECTION 15.** The Permit Issuance fee of thirty dollars and no cents (\$30) shall be applied to all Building fees, except those fees prohibited by state law.
- SECTION 16. Specific fees adopted under this resolution supersede all prior like and applicable fees from any and all previous resolutions and ordinances to the extent that they are inconsistent with the fees hereby adopted. Any and all fees and resolution provisions not inconsistent with the provisions of this resolution shall continue in full force and effect.
- SECTION 17. Effective July 1, 2020 and each year thereafter on July 1, all fees in "Attachment 2" and "Attachment 3", unless otherwise noted, shall be administratively revised and increased annually by a factor equal to the net change in City salary and benefit costs for that fiscal year. Such net change is measured by comparing the total budgeted city salary and benefit costs for the fiscal year in which the change is to become effective to the total budgeted city

salary and benefit costs for the prior fiscal year. Notwithstanding the foregoing, in no event shall the annual administrative revision set forth in this Section 17 be less than zero percent (0%). Notwithstanding the foregoing, in no event shall the annual administrative revision described in this Section 17 apply to any fees and charges established by other agencies or as otherwise may be prohibited by applicable law.

- The City Manager shall have the authority to interpret the provisions of this resolution for purposes of resolving ambiguities. The City Manager shall have the authority to authorize and require reasonable compensation for the temporary use of City property or receipt of City services not otherwise provided for in this resolution or other applicable resolutions or ordinances. Such compensation shall be based upon the City's fully burdened hourly rates
- The City Manager is authorized to waive, modify or amend fees on any matter in his/her reasonable discretion, provided that said fees may not be increased and if he/she does so, he/she shall so advise the City Council.

or costs as described in the aforementioned User Fee Study.

- The State of California requires cities to charge state-established fees, rates, and charges, which are paid to the State. The City Council hereby directs the City Manager to incorporate such State-imposed fees, rates and charges into the Master Fee Schedule, and every year hereafter.
- The restatement in the attached User Fee Reports of existing rates and amounts for previously imposed taxes, fees, and charges is for the purpose of administrative convenience and is not intended, and shall not be construed, as the imposition, extension, or increase of any such tax, fee, or charge.
- Section 22. Severability. If any section, subsection, subdivision, paragraph, sentence, clause or phrase of this Resolution or any part hereof is for any reason held to be invalid or unconstitutional, such decision shall not affect the validity of the remaining portion of this Resolution or any part thereof. The City Council hereby declares that it would have passed each section, subsection, subdivision, paragraph, sentence, clause or phrase hereof, irrespective of the fact that any one or more section, subsection, subdivision, paragraph, sentence, clause or phrase be declared invalid or unconstitutional.
- SECTION 23. If any portion of this Resolution is declared invalid or unconstitutional then it is the intention of the City Council to have passed the entire Resolution and all its component parts, and all other sections of this Resolution shall remain in full force and effect.
- SECTION 24. If there are any conflicts between the fees adopted in this resolution and fees adopted by any prior resolution or fee schedule, the fees adopted pursuant to this resolution shall take control. If there are any conflicts between the portion of the User Fee Report set forth in this resolution and any prior fee schedule, the portion of the User Fee Report attached to this resolution shall control.
- **SECTION 25.** This resolution shall take effect August 1, 2019.

Adopted by the City Council of the City of Vallejo at a regular meeting held on May 28, 2019 with the following vote:

EXECUTIVE SUMMARY

Introduction

MGT Consulting Group (MGT) is pleased to present the City of Vallejo (City) with this summary of user fee findings for the City's user fee related departments.

The City has not undertaken a comprehensive analysis of its user fees in over 7 years. Since that time, most fees have increased annually by a CPI factor. The City is interested in knowing the current full cost of its various services and exploring the options of modifying fees to better reflect Council priorities. In 2017, the City contracted with MGT to perform this review using fiscal year 2016/17 budget figures, staffing and operational information. MGT was also tasked with recommending fee adjustments based on industry best-practices.

This report is the culmination of the past twelve months of work between MGT and City management and staff. MGT would like to take this opportunity to acknowledge all who participated on this project for their efforts and coordination. Their responsiveness and continued interest in the outcome of this study contributed greatly to the success of this study.

Study Scope and Objectives

This study included a review of fee-for-service activities within the following areas:

Building Division

Engineering Division

Planning Division

Fire-Development Related fees

The study was performed under the general direction of the City's Finance department with the participation of representatives from each division. The primary goals of the study were to:

- Determine what it costs the City to provide various fee-related services.
- * Recommend fee adjustments based on full cost analysis and industry best practices.

- Develop revenue projections based on recommended increases (or decreases) to fees.
- Provide user fee models and templates to City staff enabling staff to update the study results in future years and incorporate new fees as they occur.

The information summarized in this report addresses each of these issues and provides City management with the tools necessary to make informed decisions about any proposed fee adjustments and the resulting impact on revenues.

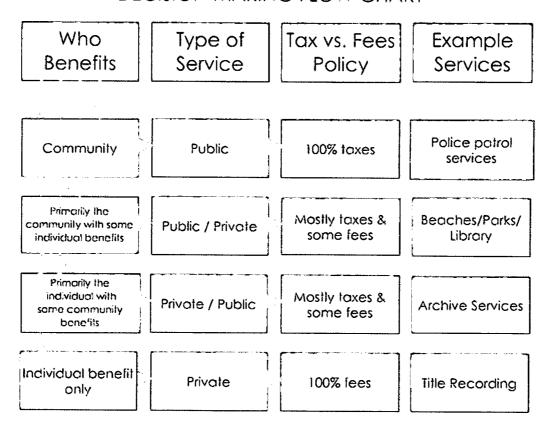

The following is a list of legal, economic and policy issues that governmental agencies typically take into consideration when determining cost recovery levels.

- ❖ State Law In California user fees are limited to the "estimated reasonable cost of providing a service" by Government Code section 66014(a) and other supplementary legislation. Proposition 26 was approved by California voters in November of 2010 and clarified which charges are considered user fees and which are considered taxes. The significance of this distinction is that user fees may be raised by Council action up to the limit of actual cost, whereas taxes may not be increased without a majority vote of the public. None of the fee adjustments recommended by MGT are considered taxes per Proposition 26 guidelines.
- **Economic barriers** It may be a desired policy to establish fees at a level that permits lower income groups to use services that they might not otherwise be able to afford.
- **Community benefit** If a user fee service benefits the community as a whole to some extent, it may be appropriate to subsidize a portion of the fee.
- ❖ Private benefit If a user fee primarily benefits the fee payer, the fee is typically set at, or close to 100% full cost recovery. Development-related fees generally fall into this category; however exceptions are sometimes made for services such as water heater permits, appeal fees or fees charged exclusively to small residential applicants.
- * Managing demand Elasticity of demand is a factor in pricing certain city services; increasing the price may result in a reduction of demand for those services, and vice versa. However, for most fees studied within the report, demand is highly inelastic.
- ❖ Incentives Fees can be set low to encourage participation in a service, such as water heater permitting or photo-voltaic installations.
- ❖ Disincentives Penalties can be instituted to discourage undesirable behavior. Examples include fines for constructing without first obtaining a building permit.

The flow chart below helps illustrate the economic and policy considerations listed above.

DECISION-MAKING FLOW CHART

Methodology

The standard approach for analyzing the cost of providing fee-related services is commonly referred to as a "bottom up" approach. The bottom up approach was used to analyze all of Vallejo's development-related user fees. A general description of the "bottom up" approach is as follows:

1. Identify all direct staff time spent on the fee related activity or service

MGT conducted a series of meetings with staff from each division to identify every employee, by classification, who performs work directly in support of fee related services. Direct staff costs are incurred by employees who are "on the front line" and most visible to the customers (e.g. inspectors, plan reviewers, etc.). Once all direct staff were identified, subject matter experts for each section estimated how much time those employees spend, on average, performing each particular fee service.

Developing time estimates for fee related services can be challenging and departments should be commended for the time and effort they put into this. Although MGT provided departments with templates and other tools to assist them in developing average or "typical" time estimates, these calculations were necessarily developed by the subject matter experts within each fee area.

2. Calculate direct cost of the staff time for each fee using productive hourly rates

"Productive hours" means the time staff are in their office or in the field. A full-time City employee typically has 2,080 paid hours per year (40 hours x 52 weeks). However, cost studies reduce this number to account for non-productive hours (sick leave, vacation, holidays, training days, meetings, etc.). MGT calculates the productive hourly rate for each staff classification by dividing annual salary and benefits by annual productive hour figures. The average productive hours for the City's staff that provide these services is 1,620 per year.

3. Determine indirect or "overhead" costs

Generally there are two types of indirect costs: division-specific and citywide overhead. These indirect costs are allocated across user fee services in order to capture the full cost of providing the service. If a department performs non-fee related services, a commensurate amount of indirect cost is segregated and not allocated to the fee related services.

- Departmental overhead costs these costs include managers, supervisors and support staff as well as other operational costs, such as materials and supplies that are incurred for a common purpose and not readily assigned to a particular service or program.
- Citywide overhead costs each department and fund within the city receives an allocation of cost from the city's various central service departments. Central service departments are those whose main function is to support other city departments and funds. Such departments include the City Manager, Finance, City Attorney, Human Resources, etc. The methods for allocating central service costs can vary but must demonstrate a causal relationship between the allocation methodology and the costs allocated to the operating department. The State Controller's Office guidelines stress the importance of allocating citywide overhead costs in a way that "equitably reflect the value of service" provided to the department receiving the service(s). Examples of methodologies used to allocate central services costs include:

- Number of full-time equivalent staff per department
- ▶ Number of encumbered purchase orders per department
- ▶ Number of accounts payable transactions per department

4. Compare total costs to the current fee schedule.

Once all direct and indirect costs are calculated, MGT compared the total cost for each fee-related service to the fee currently charged to the public. In most cases we found the total cost of providing a service exceeded the fee charged. In these instances, the fee can be increased to recover these subsidies, up to the maximum allowed fee. However, there were a number of services for which the total calculated cost was less than the fee charged. In these cases the fee must be lowered to comply with State law.

5. Annual volume figures are incorporated.

Up to this point we have calculated fee costs and revenues on a per-unit basis. By incorporating annual volume figures into the analysis, we extrapolate the per-unit results into annual cost and annual revenue information. This annualization of results gives management an estimate of the fiscal impact of proposed fee adjustments.

Because annual volume will vary from one year to the next, these figures are estimates only. Actual revenue will depend on future demand level and collection rates. Also, some of the proposed fees include a restructuring of existing fee categories. In these cases management should be conservative with fiscal impact projections.

6. Maximum allowed fee levels.

MGT identifies the maximum fee that may be charged for each fee service based on full cost information and any State or Federal limitations. City staff may present alternative fee recommendations based on their knowledge of the community and historical practices. Ultimately Council must decide what fee levels are appropriate.

Study Findings

The study's primary objective is to provide the City's decision-makers with the basic data needed to make informed pricing decisions. This report details the full cost of services and presents forecasted potential fee adjustments and their fiscal impact.

The results of the study identified that overall, most fee areas generate less revenue than the actual cost of providing services. It is not unusual to find that costs have outpaced revenues over a period of years. Often this is the result of a) increased service-level demands by the general public for improved technology or response times or b) additional inspections and standards mandated by the State. As a recent example, in January of 2014 the State enacted CALGreen Title 24 regulations. These more stringent energy regulations require additional time on jobsites by inspection staff and additional checks by plan review staff.

The exhibit on the following page displays the summary of costs and revenues for each fee area:

City of Vallejo - Development Departments User Fee Revenue Analysis

			Forecasted				
	Costs, User	Current	Current		Recommended		Potential Increased
Department/Division	Fee Services (A)	Revenue (B)	Subsidy (C)	Revenue (L)	Revenue (E)
Building Division	\$3,046,791	\$2,011,976	66%	\$1,034,815	\$1,865,365	61%	(\$146,611)
Engineering Division	\$606,426	\$456,421	75%	\$150,005	\$379,634	63%	(\$76,787)
Fire - Development Svcs	\$158,617	\$94,680	60%	\$63,937	\$114,386	72%	\$19,706
Planning Division	\$177,981	\$130,170	73%	\$47,811	\$170,683	96%	\$40,513
Total	\$3,989,815	\$2,693,247	68%	\$1,296,568	\$2,530,068	63%	(\$163,179)

Column A, Costs of Fee Services – The full cost of providing development-fee related services to the public in FY 2016/17 was \$3,989,815. These figures are derived by multiplying individual costs by annual volume for each fee schedule category.

Column B, Current Revenue – Based on current individual fee schedules, the City generates development-fee related revenue of \$2,693,247 and is experiencing a 68% cost recovery level. This recovery rate is in the mid-range of most rates MGT has studied. Within each fee area, cost recovery levels fluctuate significantly. Several of the fees analyzed are currently set above actual cost. These fees must be reduced to comply with State law. The analyses of individual fees are presented in subsequent sections of this report.

Column C, Subsidy – Current fee levels recover 68% of full cost, leaving 32% or \$1,296,568 to be funded by other funding sources. This represents a "window of opportunity" for the City to increase fees and revenues, with a corresponding decrease in the subsidization of services.

Column D, Recommended Revenue – At the recommended recovery levels annual revenue generated would be \$2,530,068. This would reduce the overall cost recovery level down to 63% of fee-related operating costs. This proposed revenue decrease includes reduced fees for subsidized services.

Column E, Potential Increased – Adjusting fees to the recommended recovery level would decrease revenue by approximately \$163,179.

Department Summary Charts

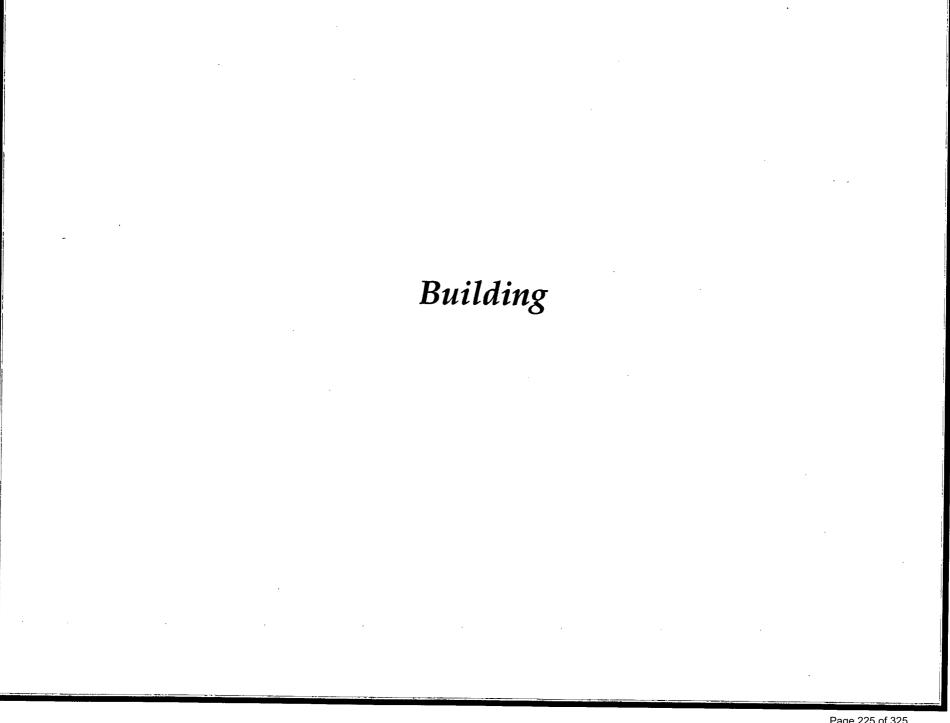

The subsequent pages display the results of our individual fee analysis. For each section the current charge, total cost and recommended fee are listed for each fee-related service.

The summaries are presented in the following order:

- Building Division
- Engineering Division

- Fire Prevention Development Services
- Planning Division

FINAL REPORT
April 2019

EXECUTIVE SUMMARY

INTRODUCTION

MGT Consulting Group (MGT) is pleased to present the City of Vallejo (City) with this summary of user fee findings for the City's user fee related departments.

The City has not undertaken a comprehensive analysis of its user fees in over 7 years. Since that time, most fees have increased annually by a CPI factor. The City is interested in knowing the current full cost of its various services and exploring the options of modifying fees to better reflect Council priorities. In 2017, the City contracted with MGT to perform this review using fiscal year 2016/17 budget figures, staffing and operational information. MGT was also tasked with recommending fee adjustments based on industry best-practices.

This report is the culmination of the past eighteen months of work between MGT and City management and staff. MGT would like to take this opportunity to acknowledge all who participated on this project for their efforts and coordination. Their responsiveness and continued interest in the outcome of this study contributed greatly to the success of this study.

STUDY AND SCOPE OBJECTIVES

This study included a review of fee-for-service activities for non-development departments. These include:

- Administration/City Clerk
- Filming and Special Events
- Fire
- Police and Code Enforcement
- Water

The study was performed under the general direction of the City's Finance department with the participation of representatives from each division. The primary goals of the study were to:

- Determine what it cost the City to provide various fee-related services.
- Recommend fee adjustments based on full cost analysis and industry best practices.
- Develop revenue projections based on recommended increases (or decreases) to fees.
- Provide user fee models and templates to City staff enabling staff to update the study results in future years and incorporate new fees as they
 occur.

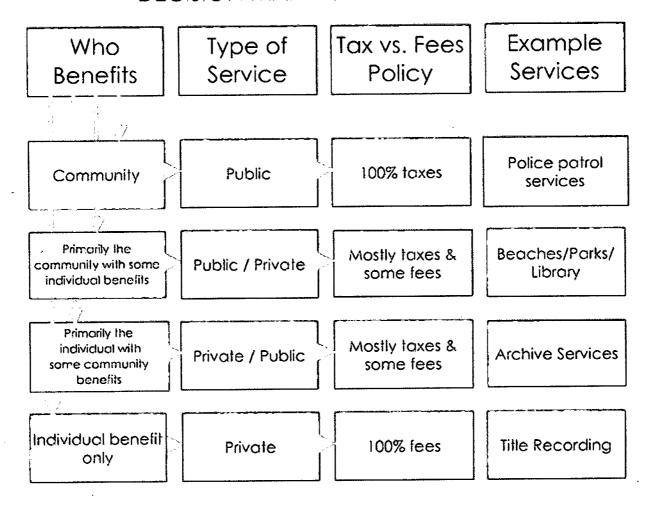

The information summarized in this report addresses each of these issues and provides City management with the tools necessary to make informed decisions about any proposed fee adjustments and the resulting impact on revenues.

The following is a list of legal, economic and policy issues that governmental agencies typically take into consideration when determining cost recovery levels.

- State Law In California user fees are limited to the "estimated reasonable cost of providing a service" by Government Code section 66014(a) and other supplementary legislation. Proposition 26 was approved by California voters in November of 2010 and clarified which charges are considered user fees and which are considered taxes. The significance of this distinction is that user fees may be raised by Council action up to the limit of actual cost, whereas taxes may not be increased without a majority vote of the public. None of the fee adjustments recommended by MGT are considered taxes per Proposition 26 guidelines.
- Economic barriers It may be a desired policy to establish fees at a level that permits lower income groups to use services that they might not otherwise be able to afford.
- Community benefit If a user fee service benefits the community as a whole to some extent, it may be appropriate to subsidize a portion of the fee.
- **Private benefit** If a user fee primarily benefits the fee payer, the fee is typically set at, or close to 100% full cost recovery. Development-related fees generally fall into this category; however, exceptions are sometimes made for services such as water heater permits, appeal fees or fees charged exclusively to small residential applicants.
- Managing demand Elasticity of demand is a factor in pricing certain city services; increasing the price may result in a reduction of demand for those services, and vice versa. However, for most fees studied within the report, demand is highly inelastic.
- Incentives Fees can be set low to encourage participation in a service, such as water heater permitting or photo-voltaic installations.
- Disincentives Penalties can be instituted to discourage undesirable behavior. Examples include fines for constructing without first obtaining
 a building permit.

The flow chart in the following page helps illustrate the economic and policy consideration listed above.

DECISION-MAKING FLOW CHART

METHODOLOGY

The standard approach for analyzing the cost of providing fee-related services is commonly referred to as a "bottom up" approach. The bottom up approach was used to analyze all of Vallejo's user fees with the exception of Administration-Clerk fees. Admin-Clerk were analyzed by comparing their fees to their relatable neighbors. A general description of the "bottom up" approach is as follows:

1. Identify all direct staff time spent on the fee related activity or service

MGT conducted a series of meetings with staff from each division to identify every employee, by classification, who performs work directly in support of fee related services. Direct staff costs are incurred by employees who are "on the front line" and most visible to the customers (e.g. inspectors, plan reviewers, etc.). Once all direct staff were identified, subject matter experts for each section estimated how much time those employees spend, on average, performing each particular fee service.

Developing time estimates for fee related services can be challenging and departments should be commended for the time and effort they put into this. Although MGT provided departments with templates and other tools to assist them in developing average or "typical" time estimates, these calculations were necessarily developed by the subject matter experts within each fee area.

2. Calculate direct cost of the staff time for each fee using productive hourly rates

"Productive hours" means the time staff are in their office or in the field. A full-time City employee typically has 2,080 paid hours per year (40 hours x 52 weeks). However, cost studies reduce this number to account for non-productive hours (sick leave, vacation, holidays, training days, meetings, etc.). MGT calculates the productive hourly rate for each staff classification by dividing annual salary and benefits by annual productive hour figures. The average productive hours for the City's staff that provide these services is 1,620 per year.

3. Determine indirect or "overhead" costs

Generally, there are two types of indirect costs: division-specific and citywide overhead. These indirect costs are allocated across user fee services in order to capture the full cost of providing the service. If a department performs non-fee related services, a commensurate amount of indirect cost is segregated and not allocated to the fee related services.

Departmental overhead costs – these costs include managers, supervisors and support staff as well as other operational costs, such as materials and supplies that are incurred for a common purpose and not readily assigned to a particular service or program.

- Citywide overhead costs each department and fund within the city receives an allocation of cost from the city's various central service departments. Central service departments are those whose main function is to support other city departments and funds. Such departments include the City Manager, Finance, City Attorney, Human Resources, etc. The methods for allocating central service costs can vary but must demonstrate a causal relationship between the allocation methodology and the costs allocated to the operating department. The State Controller's Office guidelines stress the importance of allocating citywide overhead costs in a way that "equitably reflect the value of service" provided to the department receiving the service(s). Examples of methodologies used to allocate central services costs include:
 - Number of full-time equivalent staff per department
 - ▶ Number of encumbered purchase orders per department
 - ▶ Number of accounts payable transactions per department

4. Compare total costs to the current fee schedule.

Once all direct and indirect costs are calculated, MGT compared the total cost for each fee-related service to the fee currently charged to the public. In most cases we found the total cost of providing a service exceeded the fee charged. In these instances, the fee can be increased to recover these subsidies, up to the maximum allowed fee. However, there were a number of services for which the total calculated cost was less than the fee charged. In these cases, the fee must be lowered to comply with State law.

5. Annual volume figures are incorporated.

Up to this point we have calculated fee costs and revenues on a per-unit basis. By incorporating annual volume figures into the analysis, we extrapolate the per-unit results into annual cost and annual revenue information. This annualization of results gives management an estimate of the fiscal impact of proposed fee adjustments.

Because annual volume will vary from one year to the next, these figures are estimates only. Actual revenue will depend on future demand level and collection rates. Also, some of the proposed fees include a restructuring of existing fee categories. In these cases, management should be conservative with fiscal impact projections. Additionally, we would like to clarify that the Administrative/City Clerk, Filming/Special Events, and Water departments were not analyzed with volume.

6. Maximum allowed fee levels.

MGT identifies the maximum fee that may be charged for each fee service based on full cost information and any State or Federal limitations. City staff may present alternative fee recommendations based on their knowledge of the community and historical practices. Ultimately Council must decide what fee levels are appropriate.

STUDY FINDINGS

The study's primary objective is to provide the City's decision-makers with the basic data needed to make informed pricing decisions. This report details the full cost of services and presents forecasted potential fee adjustments and their fiscal impact.

The results of the study identified that overall, most fee areas generate less revenue than the actual cost of providing services. It is not unusual to find that costs have outpaced revenues over a period of years. Often this is the result of a) increased service-level demands by the general public for improved technology or response times or b) additional inspections and standards mandated by the State. As a recent example, in January of 2014 the State enacted CALGreen Title 24 regulations. These more stringent energy regulations require additional time on jobsites by inspection staff and additional checks by plan review staff.

The exhibit on the following page displays the summary of costs and revenues for each fee area:

CITY OF VALLEJO - NON-DEVELOPMENT DEPARTMENTS

USER FEE REVENUE ANALYSIS

		Current		
Department/Division	Costs, User Fee Services (A)	Current Revenue (B))	Subsidy (C)
Code Enforcement	\$1,273,626	\$671,530	53%	\$602,096
Fire - Non-Development	\$838,839	\$670,208	80%	\$168,631
Police	\$1,499,991	\$1,159,428	77%	\$340,563
Total	\$3,612,456	\$2,501,166	69%	\$1,111,290

	Foreca	sted
Maximum Reve Allowed (D)		Potential Increased Revenue (E)
\$716,095	56%	\$238,069
\$801,649	96%	\$120,521
\$1,076,134	72%	\$302,617
\$2,593,878	72%	\$116,172

Column A, Costs of Fee Services – The full cost of providing fee related services to the public in FY 2016/17 was \$3,612,456. These figures are derived by multiplying individual costs by annual volume for each fee schedule category.

Column B, Current Revenue – Based on current individual fee schedules, the City generates fee related revenue of \$2,501,166 and is experiencing a 69% cost recovery level. This recovery rate is in the mid-range of most rates MGT has studied. Within each fee area, cost recovery levels fluctuate significantly. Several of the fees analyzed are currently set above actual cost. These fees must be reduced to comply with State law. The analyses of individual fees are presented in subsequent sections of this report.

Column C, Subsidy – Current fee levels recover 69% of full cost, leaving 31% or \$1,111,290 to be funded by other funding sources. This represents a "window of opportunity" for the City to increase fees and revenues, with a corresponding decrease in the subsidization of services.

Column D, Maximum Allowable Revenue – At the recommended recovery levels, maximum user-fee revenue available to the City is \$2,593,878. This would bring the overall cost recovery level up 72% of fee-related operating costs.

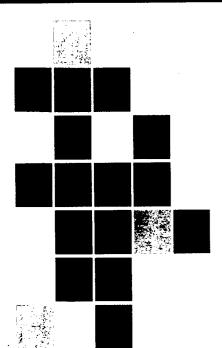

Column E, Potential Increased Revenue – Increased fees to the recommended recovery level would generate approximately \$116,172 in additional revenue. This presents a 5% increase over revenue currently being collected for these activities by the City on an annual basis.

DEPARTMENT SUMMARY CHARTS

The subsequent pages display the results of our individual fee analysis. For each section the current charge, total cost and recommended fee are listed for each fee-related service.

The summaries are presented in the following order:

- 1. Administration/City Clerk
- 2. Film and Special Events
- 3. Fire
- 4. Police and Code Enforcement
- 5. Water

Footnotes

- 1 Plus \$6 per device
- 2 These fees are collected through the Building department. Fee = 26% of the building permit fee.
- 3 These fees have been inactive for many years. Recommendation is to maintain fee at current level. California State law allows for hourly rate charges of up to \$12,000 per DUI incident (those involving an accident). Equipment costs shall be billed according to the most recent California
- 4 Fire Assistance Agreement (CFAA) approved rates. Non-Residents Only

Footnotes

- 1 Fees 1 & 2 shall remain the same. Under the current Chief, they are not approving these.
- 2 These fees are being analyzed in the Admin-Clerk Fee schedule
- 3 Repossessed Vehicle Release is set by California Government Code 41612 \$15
- 4 Set by Ordinance 7.81.060 (D)(3) \$300/day
- 5 Staff told me this is set by ordinance 7.81 However If you want to recover full cost these can be set to full cost, or somewhere in between.
- 6 Fee number 10 has no fee as set per new ordinance

SECTION 1 **Executive Summary** Page 290 of 325

Executive Summary

Introduction

MGT Consulting Group (MGT) is pleased to present the City of Vallejo with this summary of findings for the recently completed Public Works department user fee study.

MGT analyzed Public Works department fees in 2017. In late 2021, the City contracted with MGT to perform a user fee study update for the Public Works department using fiscal year 2020/2021 budgeted figures, staffing and operational information. The current City fees represent the fees being charged at the beginning of this study.

This report is the culmination of an extensive study conducted by MGT in collaboration with Public Works staff. MGT would like to take this opportunity to gratefully acknowledge all staff who participated on this project for their efforts and coordination.

Study Scope and Objectives

This study included a review of fee-for-service activities within the following areas:

Public Works

The study was performed under the general direction of the Public Works department. The primary goals of the study were to:

- Develop a catalog of the fees
- Define what it costs the department to provide various fee-related services
- Compare full costs against current fee
- Survey what regional cities charge for similar services
- Identify additional revenue potential
- Provide recommendations

The information summarized in this report addresses each of these issues and provides the City with the tools necessary to make informed decisions about any proposed fee adjustments.

Page 291 of 325

Executive Summary

Study Findings

The study's primary objective is to provide the City's decision-makers with the basic data needed to make informed pricing decisions. This report details the full cost of services and presents recommended fee adjustments and their fiscal impact. Recommendations are based on careful consideration of the results of the cost analysis, industry best practices and market comparisons.

The exhibit on the following page displays the average cost recovery rates and FY 2020/2021 budgeted revenues of each department into the following categories:

Column A, User Fee Costs –\$396,325 of the department's costs are related to user fee services. It is this \$396,325 that is the focus of this study and represents the total potential for user feerelated revenues for the City. These results exclude recreation..

Column B, Current Revenues – Based on current individual fee levels, the department generates fee-related revenues of \$378,528 and is experiencing an 96% overall cost recovery level. Current cost recovery levels for the departments range from 74% to 100%.

Column C, Current Subsidy – Current fee revenues recover 96% of full cost, leaving 4% or \$17,797 to be funded by other funding sources. This \$ 17,797 represents an opportunity for the City to adjust fees and revenues within the various departments.

Column D, Recommended Recovery – Adjusting fees to the proposed cost recovery, based on the City's User Fee Policy would balance the specified fee revenue to \$397,825. This would set the overall cost recovery level at 100%.

Column E, Increased Revenue — \$ 397,825 in potential revenue could be generated. This would represent a \$19,243 increase in the revenue currently being collected for these activities by the department on an annualized basis. Management should take a conservative approach to increase revenue projections in light of the current Covid-19 pandemic, as it could reduce construction activity and revenue.

Page 292 of 325

Executive Summary

Study Findings continued..

City of Vallejo Public Works Department FY 2020/2021

			CURF	RENT					RECO	MEN	DED	
User Fee Department	Costs, User e Services	(B)) Current Re	venue	(C) (Current	Subsidy	(D)	Cost Recover	y Policy		ncreased evenue
Public Works	\$ 396,325	\$	378,528	96%	\$	17,797	4%	\$	397,825	100%	\$	19,243
Totals:	\$ 396,325	\$	378,528	96%	\$	17,797	4%	\$	397,825	100%	\$	19,243

^{*} Surcharges of 3% for permit streamlining and 4% for technology add an estimated \$27,848 in additional revenue annually based on the annual volume in FY21. This totals annual estimated revenue of \$425,673 for flat fees within the public works department.

^{*} The estimated annual revenues do not include revenues from percentage-of-cost based fees or deposit/time-based fees.

^{*} The proposed fee structures were changed significantly from their existing structure. Several categories were added, deleted, consolidated or broken-down into sub-categories. These changes were made primarily with the customer in mind to increase overall user-friendliness of the fee schedule. Due to the proposed comprehensive changes in fee structure, fiscal impacts are only estimates.

Executive Summary

Methodology

MGT's standard approach for analyzing the cost of providing fee-related services is commonly referred to as a "bottom-up" approach. The bottom-up approach was used to analyze all of the Department's fees for service. A general description of the bottom-up approach is as follows:

Identify all direct staff time spent on the fee related activity or service

MGT conducted a series of meetings to identify work directly in support of fee related services. Direct staff costs are incurred by employees who are "on the front line" and most visible to the customers. Once all direct staff were identified, subject matter experts estimated how much time those employees spend, on average, performing each particular fee service.

Developing time estimates for fee related services can be challenging and staff should be commended for the time and effort they put into this. Although MGT provided direction with templates and other tools to assist them in developing average or "typical" time estimates, these calculations were necessarily developed by the subject matter experts within each fee area.

2. Calculate direct cost of the staff time for each fee using productive hourly rates

"Productive hours" means the time staff are in their office or in the field. A full-time City employee typically has 2,080 paid hours per year (40 hours x 52 weeks). However, cost studies reduce this number to account for non-productive hours (sick leave, vacation, holidays, training days, meetings, etc.). MGT calculates the productive hourly rate for each staff classification by dividing annual salary and benefits by annual productive hour figures. The average productive hours for the City's staff providing services ranged was 1,700 hours per year.

3. Determine indirect or "overhead" costs

Generally, there are two types of indirect costs: department (or division)-specific and citywide overhead. These indirect costs are allocated across user fee services in order to capture the full cost of providing the service. If a department performs non-fee related services, a commensurate amount of indirect cost is segregated and not allocated to the fee related services.

Departmental overhead costs – these costs include managers, supervisors, and support staff as well as other operational costs, such as materials and supplies that are incurred for a common purpose and not readily assigned to a particular service or program.

Centralized overhead costs – each department that charges fees receive support from central departments whose main function is to keep the County running. An example of a central service

Page 294 of 325

Executive Summary

Methodology Continued...

department is Human Resources. These costs are distributed to each receiving department through the cost allocation plan.

4. Compare total costs to the current fee schedule

Once all direct and indirect costs are calculated, MGT compared the total cost for each feerelated service to the fee currently charged to the public. In most cases we found the total cost of providing a service exceeded the fee charged. In these instances, the fee can be increased to recover these subsidies, up to the maximum allowed fee. However, there were some services for which the total calculated cost was less than the fee charged. In these cases, the fee must be lowered to comply with State law.

5. Costs and revenues are annualized by incorporating annual volume figures

Up to this point we have calculated fee costs and revenues on a per-unit basis. By incorporating annual volume figures into the analysis, we extrapolate the per-unit results into annual cost and annual revenue information. This annualization of results gives management an estimate of the fiscal impact of proposed fee adjustments.

Because annual volume will vary from one year to the next, these figures are estimates only. Actual revenue will depend on future demand level and collection rates.

6. Recommend fee adjustments

MGT provides fee adjustment recommendations based on full cost information, staff recommendations and industry best practices. Of course, MGT's recommendations are advisory in nature only, ultimately the Board must decide what fee levels are appropriate.

Legal, Economic, & Policy Considerations

Calculating the true cost of providing City services is a critical step in the process of establishing user fees and corresponding cost recovery levels. Although it is a principal factor, other factors must also be given consideration. City decision-makers must also consider the effects that establishing fees for services will have on the individuals purchasing those services, as well as the community.

Page 295 of 325

Executive Summary

Legal, Economic, & Policy Considerations

The following legal, economic and policy issues help illustrate these considerations.

- Legal restrictions In California user fees are limited to the "estimated reasonable cost of providing a service" by Government Code section 66014(a) and other supplementary legislation. Proposition 26 was approved by California voter in November of 2010 and clarified which charges are considered user fees and which are considered taxes. The significance of this distinction is that user fees may be raised by Council action up to the limit of actual cost, whereas taxes may not be increased without a majority vote of the public. None of the fee adjustments recommended by MGT are considered taxes per Proposition 26 guidelines. It should be noted that fees charged for the use of government property are exempt from Proposition 26. These include fees for parks and facility rentals as well as green fees, cart and other equipment rental fees. All of these fees may be set at a price the market will bear.
- **Economic barriers** It may be a desired policy to establish fees at a level that permits lower income groups to use services that they might not otherwise be able to afford.
- Community benefit If a user fee service benefits the community as a whole to some extent, it is appropriate to subsidize a portion of the fee. Development fees are typically considered to have zero community benefit, with the benefit accruing to the developer.
- **Private benefit** If a user fee primarily benefits the fee payer, the fee is typically set at, or close to, 100% full cost recovery. Development related fees generally fall into this category; however, exceptions are sometimes made for services such as appeal fees or fees charged exclusively to residential applicants.
- **Service driver** In conjunction with the third point above, the issue of who is the service recipient versus the service driver should also be considered. For example, code enforcement activities benefit the community as a whole, but the service is driven by the individual or business owner that violates City code.
- Managing demand Elasticity of demand is a factor in pricing certain City services; increasing the price of some services results in a reduction of demand for those services, and vice versa

Executive Summary

Legal Economic, & Policy Considerations Continued...

- Managing demand Elasticity of demand is a factor in pricing certain City services; increasing the price of some services results in a reduction of demand for those services, and vice versa.
- Competition Certain services, such as park usage or facility rentals, may be provided by
 neighboring communities or the private sector, and therefore demand for these services
 can be highly dependent on what else may be available at lower prices. Furthermore, if the
 City's fees are too low, demand enjoyed by private-sector competitors could be adversely
 affected.
- Incentives Fees can be set low to encourage participation in a service, such as obtaining a water heater permit.
- **Disincentives** Penalties can be instituted to discourage undesirable behavior.

9

Analysis Highlights

Analysis Highlights

Below is a brief discussion of findings the department's analysis. Please see the user fee summary sheets in **Section 3** of this report for details on each fee calculation and cost analysis.

- ✓ Public Works MGT worked with Public Works staff to revised fees into an industry standard best practices format. The proposed fee schedule significantly streamlines and simplifies fee categories. Several new fees were added, and several fee sections were restructured. All fees are recommended at full cost recovery rates.
- ✓ **Grading Fees** The grading plan check fee section was restructured. Five new fees were added to this section and are intended to breakout fee charges based on size (Cy). These fees are set based on CY up to 1,000 cubic yards. Anything beyond 1,000 cubic yards will be charged based at 1.5% of the Engineer's construction cost estimate.
- ✓ **Stormwater Fees** This section was heavily restructured. Previously, these fees were charged via a deposit. Staff recommended to adopt fixed fees. In the past, deposits were useful as the amount of time and effort varied significantly from project to project. However, time tracking presented its own challenges which motivated staff to charge fixed fees. 11 new fees were added for this section based on occupancy type and size (square feet).
- ✓ Planning Fee Support The Public Works department heavily supports Planning across 21 fee categories. MGT analyzed these fees to calculate the annual cost of providing cross support to Planning. Based on FY21 annual volume, the cost for PW to support Planning is roughly \$74,274 annually. PW is not recovering any of those revenues currently.
- ✓ **Surcharges** The Public Works department adds two different surcharges to their fees: a 3% permit streamlining surcharge and a 4% technology surcharge. MGT helped the department add those surcharges to their recommended fee amounts. Adding these two charges increased annual revenues by an estimated \$27,848. Bringing the total annual revenue to an estimated \$425,673.

Analysis Highlights

Recommendations Going Forward:

MGT recommends that the City build on its investment in this cost-of-service analysis by continuing to analyze its fees and charges whether this is done by staff or outside consultants. Once the commitment is made to understand the full cost of providing services, it is important to review and update the analysis in order to keep pace with changes in service delivery, staffing changes, and demand levels.

Most of our agencies ask us at the conclusion of the study: how often should this type of study be undertaken? Our advice is to perform this detailed analysis at least every three but not more than five years, with minor adjustments in the non-study years (to keep pace with economic impacts). MGT recommends the City apply an inflation adjustment to fees annually, based CPI from All Urban Consumers for the San Francisco Bay area to keep pace with inflation. The industry best practice is to apply this index once per year as part of the City's annual budget process. This is particularly helpful once an agency has chosen to adopt a cost recovery policy – whether 100% of cost or something less – in order to keep fees at the desired level.

Fee Schedule Comparison Analysis

Fee Schedule Comparison Analysis

A component of the Fee Analysis scope calls for a comparison of Vallejo's fees against those charged by similar agencies. For Public Works fees, with help and recommendations from staff, MGT compared fee amounts and structure to the following agencies: Antioch, Concord, Fairfield, Richmond & Vacaville.

The purpose of this component is to give Vallejo an understanding of fee structures typical in the region. This analysis gives Vallejo management an opportunity to review fee structures and fee amounts employed by other agencies and emulate any as appropriate.

MGT understands the value of this information, but believes it is important to provide the following context: 1) unless MGT has performed a similar study for the surrounding jurisdiction, we do not know what cost components are included in the fees, 2) a simple comparison of fees does not provide the City with the knowledge of whether the neighboring city has a policy of full cost recovery, or something less than 100%, 3) service levels may vary widely from jurisdiction to jurisdiction, and 4) it can be difficult to ensure an exact match up of services when each agency describes a service in its own unique manner.

The following pages display the comparison analysis results.

Dan Sequeira, Assistant Public Works Director/City Engineer

SUBJECT: CONDUCT A PUBLIC HEARING AND ADOPT A RESOLUTION ESTABLISHING NEW

PUBLIC WORKS DEPARTMENT-ENGINEERING DIVISION FEES AND CHARGES FOR

FISCAL YEAR 2022-2023 EFFECTIVE JANUARY 1, 2023

RECOMMENDATION

Conduct a public hearing and, upon conclusion, adopt a resolution establishing new Public Works Department - Engineering Division fees and charges for FY 2022-2023 effective January 1, 2023.

REASONS FOR RECOMMENDATION

Staff recommends revising the FY2022-2023 Fee Schedule to maximize cost recovery through fees that accurately reflect time, materials and efficiency improvements by moving to flat or hourly fees. Although City fees have been adjusted annually for changes in CPI (Consumer Price Index), the last fee study that included Public Works Department - Engineering Division fees was completed in 2019. That 2019 study recommended fee studies should be prepared at least every three years.

BACKGROUND AND DISCUSSION

The City contracted with MGT of America Consulting (MGT) to conduct a comprehensive review of and to update fees for the Public Works Department - Engineering Division services. A fee study is conducted periodically so that fees reflect current costs to provide services and meet full cost recovery targets, to add new fees when applicable for new City services, and/or to eliminate fees for discontinued services. The California Constitution grants cities the authority to establish fees to recover the cost of providing services, so long as the fees do not exceed the reasonable cost of the service for which they are collected.

Fee Study Methodology

The purpose of conducting a fee study is to identify the full cost to provide fee-related services and to recommend recovery levels for each fee. In order to determine the full cost of a service, it is necessary to analyze all services, both direct and indirect, and to fairly distribute costs across all activities provided by the Public Works Department - Engineering Division. The costs are calculated using the hourly rate of staff providing the service and the average time required to provide the service. MGT provided guidance on the fee study process and its best practice calculation methodology was used to develop the full cost of each fee. Data was collected using the current budget, as well as staff time estimates and service volume data. MGT's Executive Summary attached hereto as Attachment No. 2 provides an overview of the findings and results of the city-wide fee analysis.

The intent of these fees is to cover up to 100% of the cost of providing the service associated with the fee. Cost recovery analysis consists of three components:

1. Direct Labor cost. Employee hours spent directly on the fee-related service. This rate includes the employee's salary and benefits.

Date: December 13, 2022

Subject: CONDUCT A PUBLIC HEARING AND ADOPT A RESOLUTION ESTABLISHING NEW PUBLIC WORKS DEPARTMENT-ENGINEERING DIVISION FEES AND CHARGES FOR FISCAL YEAR 2022-2023 EFFECTIVE JANUARY 1, 2023

Page 2

- 2. Departmental Indirect Labor cost. Departmental employees not directly working on the fee-related service, but responsible for supervision and administrative activities. This cost layer includes administrative support staff, a portion of the department head's time and material and supply costs.
- 3. Central Overhead cost. This component includes costs for those departments that provide support to Public Works (e.g. City Attorney, City Manager, Finance and Human Resources).

Fee Study Findings

Staff carefully analyzed each fee and developed recommendations based on simplicity, competitive fees to encourage development, consideration of the public/community-wide benefit, and the effect of price increases on the demand for services. In the process of recommending cost recovery levels, staff considered the impact increased fees might have on individuals utilizing our services, and the community. These fees are charges for services or products from which individuals or businesses receive a benefit.

Overall, the Fee Study concluded that the Public Works Department - Engineering Division's current cost recovery target is \$397,825, and that the Engineering Division generates fee-related revenues of \$378,528, which represents a cost recovery level of 96%. This indicates the City is providing an overall annual subsidy of \$17,797 to fee payers. For comparison, levels for all city departments range from 74% to 100%.

The study proposes adjusting the Public Works Department - Engineering Division fees to equal the difference of the current cost recovery and revenues (\$17,797), which would provide a cost recovery level of 100%. The proposed fee adjustments are associated with three categories:

- Grading projects plan check of the grading plans, permit issuance and construction inspection
- Land development projects plan check of the construction plans and construction inspection of the work
- Stormwater projects plan check of land development projects that are subject to National Pollution
 Discharge Elimination System (NPDES) Permit requirements as mandated by the San Francisco Bay
 Regional Water Quality Control Board

MGT has included a comparison of sample user fees charged in neighboring jurisdictions that include Antioch, Concord, Fairfield, Richmond, and Vacaville. Because each jurisdiction is unique, staff recommends that the information contained in the market comparison of fees be used as a secondary decision-making tool, rather than the primary tool for establishing an acceptable price point for services. The results of the fee survey are shown in Attachment No. 2 to this report. Attachment 3 shows the recommended fee increases with the CPI increase for fiscal year 2022-2023.

Annual Fee Updates

In between comprehensive fee updates, fees for service are administratively revised and increased annually by a factor equal to the net change in City salary and benefit costs for that fiscal year. Such a net change is measured by comparing the total budgeted city salary and benefit costs for the fiscal year in which the change is to become effective to the total budgeted city salary and benefit costs for the prior fiscal year. This provision allows City fees to keep pace with increased costs for services without having to conduct a complete fee study each year.

Date: December 13, 2022

Subject: CONDUCT A PUBLIC HEARING AND ADOPT A RESOLUTION ESTABLISHING NEW PUBLIC WORKS DEPARTMENT-ENGINEERING DIVISION FEES AND CHARGES FOR FISCAL YEAR 2022-2023 EFFECTIVE JANUARY 1, 2023

Page 3

FISCAL IMPACT

Under proposed City cost recovery percentages, staff estimates the new fees will increase annual revenues by approximately \$18,000 based on the FY 2021-22 fee schedule. These are estimates only. The actual revenue will depend upon the demand for services. To the extent the City does not fully recover its costs for these services, General Fund taxes will subsidize the activity. See the following table:

Department	Revenue at Recommended Fee	Total Cost	Over-Recover or (Under Recover)	Proposed Cost Recovery Percentage
Public Works - Engineering	\$397,825	\$397,825	0	100%

ENVIRONMENTAL REVIEW

The adoption of this resolution is not a project as defined by the California Environmental Quality Act (CEQA) pursuant to section 15378(b)(4) of Title 14 of the California code of Regulations and is not subject to CEQA review.

RESOLUTION NO. N.C.

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF VALLEJO ESTABLISHING NEW FEES AND CHARGES FOR SERVICES PROVIDED BY THE PUBLIC WORKS DEPARTMENT, ENGINEERING DIVISION EFFECTIVE JANUARY 1, 2023

BE IT RESOLVED by the City Council of the City of Vallejo as follows:

WHEREAS, the City of Vallejo ("City") is empowered to impose reasonable fees, rates, and charges for municipal services. California Government Code Section 66000 et seq. authorizes the City to adopt fees for municipal services, provided such fees do not exceed the cost to the City for providing the services. The City periodically amends and updates its Master Fee Schedule to account for the various cost increases relating to municipal programs, services and activities; and

WHEREAS, the Council of the City of Vallejo has determined that in order to continue providing effective services for the public welfare, the City must establish and increase or decrease fees for certain municipal services which accurately reflect the City's true cost in providing such services; and

WHEREAS, the Council desires to enact some new fees and increase, decrease, remove, or leave unchanged existing fees for certain services and programs provided by Public Works Department – Engineering Division and to include the new, increased, decreased, or unchanged fees in the Master Fee Schedule, as attached to this Resolution as Attachment 3 and incorporated into it by this reference; and

WHEREAS, the City has conducted an extensive analysis of its Engineering services, the costs reasonably borne by the City in providing its services, the beneficiaries of such services, and the revenues produced by those paying fees and charges for such services. The City retained an independent consultant, MGT of America Consulting ("MGT"), to conduct the analysis of the Engineering Division's services and related costs. MGT collected data and interviewed City personnel as part of that analysis. Public Works Department – Engineering Division has reviewed the fee schedule and made certain recommendations. MGT completed that certain Fee Study Final Report dated May 24, 2022. The Study is on file with the City Finance Department and is incorporated by this reference. The Study sets forth a mechanism to ensure that fees adopted by the City do not exceed the reasonable estimated cost for providing the services for which the fees are charged; and

WHEREAS, pursuant to Government Code Sections 66014 and 66018, the specific fees to be charged for certain services must be adopted by resolution,

following notice and public hearing; and

WHEREAS, the Public Works Department – Engineering Division has reviewed the fees charged for such services, and with the approval of the City Manager, recommend the adoption of certain fees; and

WHEREAS, based upon all written and oral reports and presentations to Council, including the Agenda Report and the Attachment thereto, the City Council finds and determines that the proposed modifications and additions to the Master Fee Schedule set forth herein are necessary to reimburse the City for the costs of performing the various Public Works - Engineering Division functions, and that these fees do not exceed the proportional cost of the service or benefit attributable to the fee payer.

NOW, THEREFORE, BE IT RESOLVED THAT THE CITY COUNCIL OF THE CITY OF VALLEJO, CALIFORNIA, DOES HEREBY DECLARE, FIND, DETERMINE AND ORDER AS FOLLOWS:

SECTION 1. Notice of the public meeting and public hearing at which this Resolution was considered was properly given, and all oral and written presentations made to and heard by the City Council were properly considered under California Government Code Sections 66016 and 66018.

SECTION 2. Pursuant to Government Code Sections 66014 and 66018, the specific fees to be charged for certain services must be adopted by resolution, following notice and public hearing.

SECTION 3. The cost estimates produced by Public Works – Engineering Division staff and considered by the City Council in establishing fees under this Resolution are reasonable cost estimates for the provision of the Public Works - Engineering Division services to which the fees pertain and were made available to the public under Government Code Section 66016.

SECTION 4. This City Council hereby finds and determines that based upon the data, information, analysis, oral and written documentation presented to this City Council concerning the rates, fees, surcharges, and charges described in "Attachment 3" attached hereto and by this reference incorporated herein, the rates, fees, surcharges, and charges set forth in said "Attachment 3" do not exceed the estimated reasonable cost of providing the service for which the rates, fees, surcharges, or charges are levied.

SECTION 5. The rates, fees, surcharges, and charges set forth in "Attachment 3" are hereby adopted and approved as the rates, fees, surcharges, and charges for the services identified for each such rate, fee, surcharge, and/or charge.

SECTION 6. The rates, fees, and charges set forth in "Attachment 3" shall be effective and shall be implemented commencing January 1, 2023.

SECTION 7. FLAT FEES - Where applicable, flat fees have been established for certain services where the average cost is subject to minimum fluctuation. These flat fees are included on schedules incorporated into this resolution.

SECTION 8. HOURLY CHARGES - Where applicable, hourly charges shall be accumulated for development processing activities and the applicant shall pay all such costs prior to final action on the related project or as soon thereafter as such costs may be finally determined. The payment of such costs may be a condition of approval for any such application. If payment is not received within 7 working days after the invoice due date, all development processing activities will be suspended until payment is received.

SECTION 9. DEPOSITS - In cases where an hourly rate is being charged, as opposed to a flat fee, each applicant shall place on deposit with the City the sum of one-half of the estimated total fees. Deposits have been estimated to represent the minimum amount required to process each case type. The costs of an individual case may be significantly more than the initial deposit amount. Costs will be charged against the deposit until the development case deposit balance is less than ten percent (10%) of the total estimated cost at which time the applicant will be required to post an additional deposit equal to the estimated remaining fees. The applicant shall submit the additional deposit within 10 days of notice. If payment is not received within 10 working days after the notice, the City has the right to stop all development processing activities until payment is received. Any charges incurred in excess of the total deposits will be due prior to issuance of building permits. A late fee of ten percent (10%) shall be levied against delinquent development processing charges.

SECTION 10. REFUNDS - If the amount on deposit pursuant to Section 9 exceeds all accumulated costs at the time of the final action on subject application, the excess deposit shall be refunded to the applicant.

SECTION 11. The surcharges set forth in "Attachment 3" are hereby adopted and incorporated into the City's fee schedule as shown in Attachment 3.

SECTIION 12. PERMIT STREAMLINING SURCHARGE – The Permit Streamlining Surcharge shall be three percent (3%) and shall be applied to all Building, Planning and Engineering fees, except those fees prohibited by state law.

SECTION 13. TECHNOLOGY SURCHARGE – The Technology Surcharge shall be four percent (4%) and shall be applied to all Building, Planning and Engineering fees, except those fees prohibited by state law.

SECTION 14. Specific engineering fees adopted under this resolution supersede all prior like and applicable fees from any and all previous resolutions and ordinances to the extent that they are inconsistent with the fees hereby adopted. Any and all fees and

resolution provisions not inconsistent with the provisions of this resolution shall continue in full force and effect.

SECTION 15. Effective January 1, 2023, and each year thereafter, all fees in "Attachment 3", unless otherwise noted, shall be administratively revised and increased annually by a factor equal to the net change in Public Works - Engineering Division salary and benefit costs for that fiscal year. Such net change is measured by comparing the total budgeted engineering salary and benefit costs for the fiscal year in which the change is to become effective to the total budgeted engineering salary and benefit costs for the prior fiscal year. Notwithstanding the foregoing, in no event shall the annual administrative revision described in this Section 15 apply to any fees and charges established by other agencies or as otherwise may be prohibited by applicable law.

SECTION 16. The City Manager shall have the authority to interpret the provisions of this resolution for purposes of resolving ambiguities. The City Manager shall have the authority to authorize and require reasonable compensation for the temporary use of City property or receipt of City services not otherwise provided for in this resolution or other applicable resolutions or ordinances. Such compensation shall be based upon the City's fully burdened hourly rates or costs as described in the aforementioned Fee Study.

SECTION 17. The City Manager is authorized to waive, modify or amend fees on any matter in their reasonable discretion, provided that in no event may said fees be increasedr.

SECTION 18. The State of California requires cities to charge state-established fees, rates, and charges, which are paid to the State. The City Council hereby directs the City Manager to incorporate such State-imposed fees, rates and charges into the Master Fee Schedule, and every year hereafter.

SECTION 19. The restatement in the attached Fee Study of existing rates and amounts for previously imposed taxes, fees, and charges is for the purpose of administrative convenience and is not intended, and shall not be construed, as the imposition, extension, or increase of any such tax, fee, or charge.

SECTION 20. Severability. If any section, subsection, subdivision, paragraph, sentence, clause or phrase of this Resolution or any part hereof is for any reason held to be invalid or unconstitutional, such decision shall not affect the validity of the remaining portion of this Resolution or any part thereof. The City Council hereby declares that it would have passed each section, subsection, subdivision, paragraph, sentence, clause or phrase hereof, irrespective of the fact that any one or more section, subsection, subdivision, paragraph, sentence, clause or phrase be declared invalid or unconstitutional.

SECTION 21. If any portion of this Resolution is declared invalid or unconstitutional

then it is the intention of the City Council to have passed the entire Resolution and all its component parts, and all other sections of this Resolution shall remain in full force and effect.

SECTION 22. If there are any conflicts between the Public Works - Engineering Division fees adopted in this resolution and Public Works - Engineering Division fees adopted by any prior resolution or fee schedule, the Public Works - Engineering Division fees adopted pursuant to this resolution shall take control. If there are any conflicts between the portion of the Fee Study set forth in this resolution and any prior fee schedule, the portion of the Fee Study attached to this resolution shall control.

SECTION 23. This resolution shall take effect January 1, 2023.

RESOLUTION NO. 24-154 N.C.

RESOLUTION OF THE CITY COUNCIL OF THE CITY OF VALLEJO APPROVING AN AMENDMENT TO THE MASTER FEE SCHEDULE FOR FISCAL YEAR 2024-25 ESTABLISHING NEW USER FEES FOR CODE ENFORCEMENT

WHEREAS, California Government Code Section 66000 et seq. authorizes the City of Vallejo ("City) to adopt fees for municipal services, provided such fees do not exceed the cost to the City for providing the services; and

WHEREAS, the City has conducted an extensive analysis of its Code Enforcement services, the costs reasonably borne by the City in providing its services, the beneficiaries of such services, and the revenues produced by those paying fees and charges for such services. The City retained an independent consultant, MGT of America Consulting, to conduct the analysis of the City's Code Enforcement services and related costs, which analysis is contained within the "MGT User Fee Study – City of Vallejo Code Enforcement Department Final Report of September 2024" ("User Fee Study"); and

WHEREAS, the User Fee Study sets forth a mechanism to ensure that fees adopted by the City do not exceed the reasonable estimated cost for providing the services for which the fees are charged; and

WHEREAS, the Code Enforcement Division has reviewed the User Fee Study, and with the approval of the City Manager, recommends the adoption of the fees set forth in the User Fee Study Summary Sheet attached to this Resolution as **Exhibit A**; and

WHEREAS, on September 24, 2024, at the hour of 7:00 p.m. at the City Council Chambers located at 555 Santa Clara Street, Vallejo, California, the City Council of the City of Vallejo held a public hearing to consider the adoption of new user fees to cover existing services provided by the Code Enforcement Division, notice of which hearing was given as required by law; and

WHEREAS, all persons interested and desiring to be heard at the hearing were given an opportunity to be heard, and all matters and things pertaining to the adoption of the new fees were fully heard and considered by the City Council.

NOW, THEREFORE, BE IT RESOLVED that the City Council does hereby declare, find, determine and order as follows:

Notice of the public hearing at which this Resolution was considered was properly given, and all oral and written presentations made to and heard by the City Council were properly considered under California Government Code Sections 66016 and 66018.

The cost estimates produced by City staff and considered by the City Council in establishing fees under this Resolution are reasonable cost estimates for the provision of the City services to which the fees pertain and were made available

to the public pursuant to Government Code Section 66016.

SECTION 3.

This City Council hereby finds and determines that based upon the data, information, analysis, oral and written documentation presented to the City Council concerning the fees described in **Exhibit A**, the fees set forth in said **Exhibit A** do not exceed the established reasonable cost of providing the service for which the fees are levied.

SECTION 4.

The fees forth in **Exhibit A** are hereby adopted and approved as the fees for providing the services identified for each such fee.

SECTION 5.

The fees set forth in **Exhibit A** shall be effective and shall be implemented commencing November 25, 2024.

SECTION 6.

Specific fees adopted under this resolution supersede all prior like and applicable fees from any and all previous resolutions and ordinances to the extent that they are inconsistent with the fees hereby adopted. Any and all fees and resolution provisions not inconsistent with the provisions of this resolution shall continue in full force and effect.

SECTION 7.

The City Manager shall have the authority to interpret the provisions of this resolution for purposes of resolving ambiguities.

SECTION 8.

If any portion of this Resolution is declared invalid or unconstitutional then it is the intention of the City Council to have passed the entire Resolution and all its component parts, and all other sections of this Resolution shall remain in full force and effect.

Adopted by the City Council of the City of Vallejo at a regular meeting held on September 24, 2024, with the following vote:

RESOLUTION NO. 25-115 N.C.

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF VALLEJO APPROVING THE FISCAL YEAR 2025-2026 VALLEJO MUNICIPAL MARINA SCHEDULE OF FEES

WHEREAS, the future financial security of the Vallejo Municipal Marina is dependent upon establishing an equitable rate structure that ensures its competitiveness with other Bay Area marinas and ensures sufficient revenues are generated to pay for operating, dredging, and debt service expenses; and

WHEREAS, all fees and service charges remain unchanged; and

WHEREAS, the City Council conducted a public hearing on June 10, 2025, at which time members of the public were afforded an opportunity to express their views.

NOW, THEREFORE BE IT RESOLVED that the City Council hereby approves the Fiscal Year 2025-2026 Vallejo Municipal Marina Schedule of Fees as set forth in **Exhibit 1** to this Resolution, which fee schedule shall be effective July 1, 2025.

Adopted by the City Council of the City of Vallejo at a regular meeting held on June 24, 2025, with the following vote:

AYES: Councilmembers Gordon, Lediju, Matias, Matulac and Palmares

NOES: Mayor Sorce

ABSENT: Vice Mayor Bregenzer

Berthing fees may be waived to governmental agencies and community organizations, provided the following criteria is met:

- Fee exempt berthing is available on a space available basis only.
- No more than one percent (1%) of the total berths within the Vallejo Municipal Marina shall be allowed for fee exempt berthing.
- Fee exempt berthing shall not be authorized in covered or other premium berths.
- When the City Manager or his designated representative has determined that a governmental agency or community organization
- benefits the citizens of Vallejo or benefits the berth renters and the Marina and will not negatively impact Marina operations.
- Berth assignment shall be as assigned by authorized Marina staff.
- Groups or organizations must sign vessel berthing agreement and comply with all existing rules and regulations.
- Day Use and overnight guests must sign vessel berthing agreement and comply with all existing rules and regulations.
- Vessel must carry liability insurance in the amount of \$500,000 naming the City of Vallejo as an additional insured.
- Marina Supervisor must inspect vessel and certify that the vessel meets all rules and regulations in effect at the time of request.

The City Manager, or his designated representative, is authorized to offer promotional discounts or incentives for berth rentals for the purpose of increasing occupancy/revenues.
